## The Third National Bank

OF CHESTERTOWN, MD.

**The Only National Bank in Kent County**

"THE BANK WHERE YOU FEEL AT HOME."

The usefulness of a Bank, perhaps more than any other business, is measured in terms of Confidence. Founded on approved Banking Principles, conducted by right methods, we have established here an Institution worthy of your complete Confidence. With Confidence in our ability to serve and with experience, we offer to the Public a thoroughly modern, up-to-date Bank. We are keeping our Old Friends because through years of active service this Institution has proved itself worthy of their loyalty. And we have established new Friendships because they find here a thoroughly modern Banking Service, alert and in keeping with their requirements. "When a Bank of progressive ideals starts out with the principle that nothing of value is lost by being thoroughly Sound and Conservative—and sticks to it through the years—that Bank usually becomes increasingly popular and prosperous."

We believe that the more points at which we touch human nature and human interests the more alive we become and the longer we will stay so. A true conception of banking accepts graver responsibilities than money changing. We believe in honest service, a constructive and helpful policy in all our contacts. This Bank enjoys its position because it views resposibilities to its people and its community through a wide angle lens.

Sincerely yours,

**The Third National Bank of Chestertown, Md.**

## Meeting of United Democratic Women's Club

The United Democratic Woman's Clubs of Maryland will hold their semi-annual meeting at the new Wicomico Hotel in Salisbury on Saturday, the 18th, of April.

The speakers will be Senator King, of Utah, considered one of the finest orators of the Senate and called "The Watch-dog Of The Treasury."

Mrs. Carroll Miller, of Pittsburgh (who spoke at the Democratic Convention in New York and charmed that audience of fifteen thousand people), will also be with us.

Mrs. Miller also spoke at the dinner given in Washington, by The National Woman's Democratic Club to Governor Ross, of Wyoming, the first woman governor in the United States and a Democrat. The men present at this dinner enjoyed Mrs. Miller's talk particularly.

The luncheon will be served at 1.30 o'clock, after which our distinguished guests will speak.

Tickets will soon be on sale in each county.

The business meeting will be held at 11 a. m.. All ladies and gentlemen who belong to the Democratic party are most cordially invited to attend this meeting and help to make this Eastern Shore gathering a tremendous success.

The Salisbury Committee is as follows: Mrs. W. S. Gordy, Mrs. Geo. Hitch, Mrs. A. J. Vanderbogart, Miss Ruth Price, Mrs. S. King White, Mrs. Willis Parker, Mrs. H. S. Wailes; Mrs. Wilbur W. Hubbard, Chairman of Eastern Shore.

## Interesting Meeting at Fairlee.

Fairlee Local, Kent County Farm Bureau held its monthly meeting at Fairlee High School Wednesday evening, April 1. Mr. Henry W. Anderson, President, presiding with Mr. W. P. Graves, Secretary. A large membership was present and a very interesting program rendered. Selections by local talent were enjoyed.

The tomato situation was discussed and reports indicated that the contract price would be 30 cents.

Attention was called to the necessity of thorough spraying, fertilizing and good culture to secure good crops.

The principal speaker of the evening was Mrs. Harold H. Baker, of Quaker Neck. Mrs. Baker has been making a study of turkeys for four years and each year has increased the size of her flock, each year raising y90 turkeys. During and after her talk she answered a continuous fire of questions from interested listeners. Coffee, cocoa and cake were served.

Mrs. Baker will discuss the turkey proglem next week at a meeting of the Millington Local at the High School.

## Corrosion a Menace

A world wide attack by science on corrosion, through which vast amounts of wealth are being dissipated in rust that has gone on unchecked, for centuries, was launched today at a symposium held at Johns Hopkins University by the division of industrial and engineering chemistry of the American Chemical Society.

As a result of agreements reached among scientists as to the fundamental causes of corrosion, a corrosion institute will be created here and co-operative effort to stop the raveges of corrosion will be undertaken by the institute with the support of both the users and producers of metal products. The cost of replacng every year in the United States metal structures which fail because of rusting was estimated by the experts at $300,000,000.

STAVELY & BOWERS,
a11-tf Lynch, Md.

## Shall the Chestertown Medical Unit of the National Guards be Removed from Chestertown?

Col. L. John Markey Commanding officer of the First Regiment Maryland National Guard was in Chestertown on Tuesday. He addressed the students of Washington College in the morning and inspected the Chestertown Medical Unit in the evening. Colonel Markey, in conversation with several Chestertown citizens, who witnessed the inspection and drill, said, that unless eight new members could be added to the Chestertown Unit within thirty days, this unit would be removed from Chestertown and attached to some other state unit. This unit is quite an asset to the town and county in several ways. First, it is a protection in times of need; second, it distributes about $4,000 annually in the community and third, it gives to our boys an opportunity to learn something of the use of medicine and the practice of first aid, and also to be of real value to our country in time of war.

## Interesting Programs at College

Other public events scheduled to be held at the University of Maryland at College Park during the coming year have crowded out the annual Farmers' Day the last week in May and the faculty committee, having the arrangements in charge, has decided to postpone it until next year.

Among the important events for which plans are being matured at the institution is a day's program for the National Soybean Association which will hold its convention in Washington during August. Farmers of the State will be invited to take part in this program and efforts will be made in the various counties of the State to arrange automobile tours to College Park for the event. In view of the growing importance in the State of soybeans as a hay and forage crop and for seed, it is expected that the meeting will attract much interest.

During the latter part of October or early in November, a home coming day is being planned with the annual student horticultural show and the annual student grain and hay show will be staged in conjunction with special exhibits by the students of the livestock, the dairy and the home economics departments.

Prior to these events, of course, will be the exercises incident to commencement. Commencement week ceremonies will begin Sunday, June 7, with the baccalaurete sermon. The address to the graduating class will be made by Senator William Cabell Bruce on Tuesday, June 9.

## Preparing for Show

Preparations are being made to stage Chestertown's big novelty show for the benefit of the local fire Company on May 4, 5, and 6. The show will be entitled "Hip, Hip, Horay," and will be something new in the line of home talent entertainment, being a big Ministrel-Musical Revue in five big scenes, each scene being complete in itself and will have the largest cast ever assembled here for a local entertainment over 100 of our best singers, dancers, and entertainers taking part. The Wheeler Producing Company, who have been engaged by the fire company to stage the show, are considered among the best in this line of work, and have staged very successful shows in all the larger Shore towns, and through out the East, and an entertainment of the highest order is assured.

## Mr. Perkins Does Good Work

The depositors of the wrecked Second National Bank of Elkton will receive in all 70 cents on each dollar they had on deposit at the time the bank was closed. The Circuit Court of Cecil county has ratified the sale and audit passed on the sale of the Gilpin Falls Electric Company, to the Elkton Electric Light Company, a subsidiary of the Northern Maryland Electric Company, for $100,000. This money has been paid over to Mr. This. W. Perkins, receiver of the bank. The work of Mr. Perkins in handling this intricate and extremely difficult matter has marked him as a man of real ability in finance.

### Strong Medicine

"Doctor," asked a lady of color, "Ah's come to see ef yo' am gwine order one o' dem mustard plasters ag'in today?"

"I think perhaps he had better have one more," answered the medico.

"Well, he says to ax yo' kin he have a slice o' ham wid it, 'count of it's a moghty pow'ful perscription to take alone." (American Legion Weekly)

—The Circuit Court for Kent County will convene on Monday, April 20. There are a number of important cases on the docket to be tried.
