SPEND MILLIONS TO EXTEND LONG DISTANCE LINES

A. T. & T. Co.'s Plant Additions For 1925 Call For Outlay Of $19,000,000.

In order to take care of the increasing use of the Long Distance telephone lines and to provide adequate service, the Long Lines of the Bell System during 1925 will expend the sum of $19,000,000 in plant and additions. Construction work will be carried on in forty-one states.

Toll cable work makes up a large part of this construction program. The sum of $9,500,000 will be expended in this way. This will provide for the completion of cable work now under way between Cleveland and South Bend., Ind., the final section of the New York-Chicago cable which it is expected will be put into operation some time this year. It also provides for cable work on the New York-Buffalo route from Catskill through Albany and Schenectady towards Utica; a second cable between Cuyahoga Falls and Newburgh, O., and the Chicago-Terre Haute cable. Toll cable will also be installed during 1925 from St. Louis to Peoria via Alton and Springfield and, at a later date, will be extended to Chicago.

The aerial open wire projects for the year, including new pole lines, will amount to $1,800,000 and will include the extension of the southern transcontinental route from El Paso to New Orleans via Dallas.

Other building and equipment work, costing $4,000,000, and line work not included in the aerial wire and cable projects amounting to $3,200,000, form a further part of the construction program for 1925 which will be larger than any the Long Lines Department of the American Telephone and Telegraph Company has hitherto undertaken. Last year plant additions costing approximately $17,500,000 were made.

C. & P. TO SPEND $61,650,000 FOR NEW PLANT

Make Big Gain In Telephones

Additions to telephone plant will cost $61,650,000.

The Chesapeake and Potomac Telephone Company will spend a large sum, increasing its plant facilities during the next five years in the District of Columbia, Maryland, Virginia and West Virginia.

New buildings, switchboards, storage batteries, testing equipment and other central office apparatus are included in the authorization. Underground conduit and cable extensions, pole lines, aerial cable, telephones, and many other classes of equipment will be placed in service.

The Chesapeake and Potomac Telephone Company has added 10,611 telephones to its system in the first four months of this year. Compared to 1924 this was a 39 per cent. gain in a 33 1-3 per cent. period of time. The gain in telephones for the District of Columbia was 4,655; Virginia, 2,583; Maryland, 2,342, and West Virginia, 1,031.

A recent survey made by telephone engineers shows that The Telephone Company expects to have in operation 650,000 telephones by 1930. This is a gain of 150,000 stations in a five-year period. The Company now serves 504,098 telephones, which is more than double the number operated ten years ago.

On January 1, 1915, there were 215,000 telephones owned by the Company in the District of Columbia, Maryland, Virginia and West Virginia. By 1920 this number had increased to 350,000 telephones. During this five-year period several thousand telephones were taken over by the Chesapeake and Potomac Telephone Company in northern West Virginia, which had previously been operated by an associated Bell Company.

PHONE EMPLOYEES GIVEN MEDALS FOR PUBLIC SERVICE

Maryland, Virginia And West Virginia Operators And Linemen Rewarded By C. & P.

Bronze Vail Medals for noteworthy public service have been awarded twelve employees of the Chesapeake and Potomac Telephone Company.

T. N. VAIL MEDAL

Miss Anna Lennan, Chief Operator; Lloyd M. Atkins, Combination Man, and Misses Ethel B. Metz, Ruth Virginia Metz, Marguerite O'Donnell, Alma M. Phillips, Loretto A. Lennan and Mrs. Mary C. Herbert, operators at Piedmont, West Virginia, will receive Vail Medals for their valiant work in rendering telephone service during the period of the severe flood that visited the town, March 29, 1924. Homes were flooded and buildings and bridges were carried away, but these courageous telephone employees stayed on the job and furnished service to the community during the entire emergency.

Awards were also made to Miss Margaret K. Gonter, operator in the Elm Grove, Wheeling office, who, on her own initiative gave warning of a bank robbery which resulted in the capture of the robber and the saving of $2,000 of the bank's money; Albert A. Schulz, telephone installer at Baltimore, who rendered first-aid to a man who had been poisoned with bichloride of mercury tablets, and saved his life; H. C. Hendrickson, line foreman, Norfolk, resuscitated a cable spilcer who had been overcome by gas fumes while working in a manhole, and Zeb S. Miller, combination man of Williamsburg, Virginia, who saved the life of a man in a burning building. Miller also rendered valuable service to his company in preventing the destruction of telephone property.

"This type of loyalty and devotion is one of the finest traditions of the Bell System. The thought of service first is more than devotion to an organization such as ours, inspiring as that may be. It is devotion to the highest ideals of duty and obligation in that service, and it is a distinct honor on the part of the Telephone Company to reward these employees for their loyalty and duty," was the statement made by John C. Koons, Vice-President of the Chesapeake and Potomac Telephone Company at Washington in announcing the awarding of the medals.

Facts About The Telephone

A woman in Los Angeles celebrated her 101st birthday recently by using the telephone for the first time in her life.

Iowa, with over 22 telephones for every one hundred of its population, ranks first of all the states in telephone development.

During 1924, there was an increase of 15.6 per cent. of wire mileage in the outside plant of the Bell System—5,148,060 cable and 222,000 miles of open wire. At the end of 1924 eighty-nine per cent. of the wire mileage of the Bell System was in cable and about three-quarters of the cable was underground.

ROCK HALL

Mr. and Mrs. C. E. Wilson, of Camden, N. J., spent from Friday to Sunday with their parents, Mr. and Mrs. Carroll Willson and Mr. and Mrs. David Ayres.

Miss Gertrude Willson, of State Normal School, spent the holidays and week-end with her parents, Mr. and Mrs. Carroll Willson.

IT HAS LASTED

Chesttertown People Must Believe Such Convincing Testimony as Mrs. Kirby's

No one in Chestertown who suffers backache, headaches, dizziness, rheumatic pains or distressing urinary ills can afford to ignore this twice-told story of a Chestertown resident. It is confirmed testimony, telling of lasting benefit from Doan's Pills—a stimulant diuretic to the kidneys. It's evidence that no man or woman in Chestertown can doubt.

Mrs. S. E. Kirby, 101 N. Queen St., says: "I used Doan's Pills with good results when I was troubled with a slight disorder of my kidneys and backache."

Over Five Years Later, Mrs. Kirby said: "Doan's Pills cured me of kidney complaint and the cure has been lasting. I always recommend them."

Price 60c. at all dealers. Don't simply ask for kidney remedy—get Doan's Pills—the same that Mrs. Kirby had. Foster-Milburn Co., Mfrs. Buffalo, N. Y.

NOTICE

BRICE'S MILL

JOSEPH BRICE, Proprietor.

Bake things he likes with FLAVO FLOUR. It's healthful and tissue building. There is more nutrition and a sweeter taste in FLAVO FLOUR. It is made with a new process by the most modern mill in the world. Nature's food values and the delicious flavor of the wheat are not milled out as they are by other methods. FLAVO FLOUR is milled at home from home wheat. It is good. Buy it and patronize Home Industry.
