Western Maryland College Methodist Protestant School making Tremendous Progress

The attention of our readers is directed to the advertisement of Western Maryland College appearing in this issue. The college has made a record for thoroughness and excellence not surpassed by any in thestate. It holds the highest rating for colleges by the standardizing agencies, being in every respect a Standard A-1 college. Its beautiful location in the highlands of Maryland, its fine equipment in buildings and grounds, its high-grade faculty, its modern courses of study, make it an attractive place to get a higher education.

A new dormitory, costing $150,000 and a new athletic field, built at a cost of $50,000 and considered one of the best fields in the eastern part of tne United States, are features. A financial campaign just closing will increase the endowment by a half million dollars and thus furnish additional permanent income. The college plant has now a value of $1,500,000 and it is proposed to augment this by at least that much more.

The college offers eight courses leading to the degree of Bachelor of Arts. courses may be elected which prepare for the schools of law, medicine, and engineering, and which admit to the best professional schools. A four year course in Home Economics leading to a degree is offered. Students may also elect a course in education, the completion of which secures a certificate of the State Board of Education enabling the holder to teach in the high schools of this and other states. In addition to the regular courses offered, there are supplementary courses in Music and Speech. A regular unit of the Reserve Officer's Training Corp is established at the college, the Government supplying the teachers of Military Science and Tactics and uniforms and equipment. During the year just ended Western Maryland ranked high amoung the schools of the Corps Area in this department.

The college has recently been honored by the General Education Board (the Rockfeller Foundation). That body, after making a careful and comprehensive survey, gave the college a high rating and made an appropriation of $125,000 to the Endowment Fund. It is likely that this will be followed by gifts from this and other sources.
