Vernon Symphonic Quintet

Paul Vernon and His Cleveland Symphonic Quintet and Constance Neville-Johns

The Cleveland Symphonic Quintet is a musical company with a definite purpose. It aims to present the best in musical art is such a way that it can be enjoyed by all; and especially by those who believe themselves unmusical, as well as the musically cultured. It is composed of musicians whose ability is beyond cavil, headed by a man who believes in the future of American music, and who knows how to make a popular entertainmcst instructive, and how to make an educational program entertaining. Such a man is Paul V. Vernon. The Quintet uses tho violins, viola, cello and piano.

Constance Neville-Johns

The Purpose and the Program

In arranging the programs, three points have been kept in mind. First of all the music selected has been such as will be comprehensible to the average audience, and something has been included to please all varieties of people and tastes. Second, it must be good music which is worth the hearing, much of it the works of the great composers of undying fame. Third, compositions have been chosen which fairly represent various types and forms of music

Mr. Paul Vernon has that unusual gift in musicians of being able to speak in public effectively, and makes brief talks between numbers, telling something about each piece and its composer, and also, in a general way tries to show something of the development of music about the differest types and "varieties." Also, he tells of the nationality of composers, and their compositions, showing that nationality in music is as distinct as languages and races.

Not the least interesting feature of the program is that a certain portion of it is given over to the form of music known as "chamber music," consisting of ensemble of two violins, viola, and cello. This company is perhaps the only one is Chautauqua work which presents this feature, as it requires a viola, a somewhat rare instrument.

There are in addition—solos for all instruments and vocal solos and instrumental groupings of duets, trios, and quartets.

With the Vernon Quintet is a young Australian colobratura soprano, Constance Neville-Johns, who is beginning her second Chautauqua year since landing in America in May, 1924. A pleasing personality adds to the charm of her numbers.

This is an evening for the music lovers of the community.
