POULTRY NOTES

ITEMS THAT WILL INTEREST OUR READERS GATHERED HERE AND THERE.

The egg is a food which is particularly high in content of ash or mineral matter. For this reason the ration of the hen needs relatively more attention to the matter of minerals than that of the average farm animal. The ingredients in eggs are as follows: Water, 65.7 per cent; protein, 11.4 per cent; ash, 12.2 per cent; fat, 8.9 per cent.

Often one hears of some flock owner using broken glass, broken crockery and other similar minerals as a form of grit to make egg shells. Some never pay any attention to the mineral needs of the fowl until some soft-shelled eggs are found. It is generally agreed that soft-shelled eggs are caused by the hens being overfat or it may be due to some improper function of the oviduct rather than to the absence of mineral or shell-forming material. When the supply of calcium carbonate is lacking the hen gets out of good laying condition.

Green feeds should be supplied to hens confined in small yerds. Free range or large yards kept in grass will furnish ideal conditions for green feed. Where small yards have to be used they should be divided into two parts and used alternately, planting the vacant section two or three times yearly with a quick-growing green crop such as rape, oats, yheat, rye or barley. This method furnishes green feed and also helps to keep the yards sweet and clean which is a very important consideration.

Many farm breeders of poultry claim they are not interested in the large records that have been made by some of the breeders on account of the fact that it is impossible to secure such records under farm conditions. On the other hand, there are also many who are interested in such records, for they appreciate the fact that the improvement in our flocks in general must come largely through the introduction of fowls of this character. The improvement in the physical characteristics of our fowls is largely the result of the work of breeders who have made improvement both in type and feathers.

Pullets can be moved the quickest by using a crate with a slide door in the side. Close the colony houses at night. The next morning the crate can be held near the small door of the colony house until enough birds pass thru to fill it. Then the crate is taken to the laying house on a wheelbarrow. The pullets can be given their winter treatment for lice as they are removed individually from the crate and freed in the laying house.

I find that pullets quickly learn to return to roosts that they select for themselves. So it pays to be in the house at sundown for a few nights and break up any crowds of pullets that gather in the corners of the house on the floor. All pullets that try to hide in the nests can be removed and tossed on the floor. They soon see the roosts and jump on them where they find they are not disturbed.

If the poultryman waits until after dark and then picks up the birds on the floor and in the nests and places them on the roosts, the birds do not know how to get there.

Are you thinking about beginning in poultry culture? This is an excellent time to buy a trio or pen or more of just the kind of chickens you desire to keep. Better be willing to pay good big money for extra fine birds from a reliable breeder. Yearlings will do well by you. Cou can have the benefits of their egg yield through the fall and winter and then raise a fine lot of chickens next spring and summer. The better birds you get and the more you pay for them the more pleasure you will take in them and the more dollars you will be likely to make out of them. If you begin with third rate stock you will have a third rate interest in the care of them. If you buy one hundred per cent birds your zeal and pride will step straight up to the level of them. Success will be well assured.

Feed pretty liberally of corn and corn meal for the next few weeks to put a fair degree of flesh on the layers before they begin the long and strong task of the egg season. Better not push early pullets too hard at the nest for the first few weeks. Give them a chance to develop their bodies and their vitality. Make splendid animals of them before you put them down to the hardest and most exhausting work that a female has to perform in this world. Otherwise they lay small sized eggs and be some what stunted in body and vigor of constitution.

Study up the breeds of fowls again this month. Whatever breed you keep you will understand better and appreciate more as to weakness as well as points of strength if you have a good knowledge of all the other breeeds. You can't know too much about poultry of any kind if you desire to succeed well with fowls. It heartens one most wholesomely to look over the pictures of the fine breeds of fowls as they are now so attractively and instructively set forth in published books and poultry journals. There's good cash in keeping your morale up to par or above. I pity the man who loses his enthusiasm for good poultry and still tries to make a living at it, or even have a little sport on the side with the fancy phase of the business. Morale is everything in business as well as in war.

COUNTY AGENT'S NOTES

SUGGESTIONS TO OUR FARMERS REGARDING THE PURCHASE OF SEED WHEAT

Let us not forget that wheat is a very important crop in Kent county. There are two important phases of this crop which I desire to invite your close attention to at this particular time. They are as follows:

1. SEED WHEAT. Plant Improved Mammoth or Mammoth Red. Why sow poor seed and next year reap a poor crop? I secured the first Improved Mammoth Red Seed Wheat that was put out by the Maryland Erperiment Station and gave it to a Kent farmer for propagation. Today a number of Kent farmers have supplies of Improved Mammoth Red that may be secured for seed. My efforts with this variety of wheat have been purely in the interests of all wheat growers in Kent County, although I have necessarily worked with a few farmers in building up a source of supply of good seed.

The Maryland Experiment Station records published show Mammoth Red to be the highest yielding variety of wheat for Maryland. My observation and results of demonstrations show improved Mammoth Red Wheat to be the highest yielding wheat in Kent County. Mr. Farmer, if you are not satisfied with your wheat, try Improved Mammoth Red.

2. Covered or stinking smut in wheat. This is the second, and from observation this year, the most important problem facing the Kent Wheat Farmer.

Covered Smut reduces the yield; its presence in wheat cuts the price; and this menace seems to be on the increase. There are two methods to rid your seed wheat of covered smut, as follows:

A. Wet Method. Mix one (1) pint of formaldehyde to thirty gallons of water. Put seed wheat on clean floor, moisten seed with formaldehyde and water mixture, preferably by means of watering pot, and shovel thoroughly or until every seed is moistened. Do not make too wet. Spread out to dry. Shovel twice or more daily until dry.

B. Dry Method—This treatment consists of applying copper carbonate dust to the wheat so that every grain becomes dusty. It is applied at the rate of 2 to 3 ounces to the bushel of wheat. This method requires an apparatus built on the plan of a barrel or box churn. It should be large enough to treat two (2) or more bushels at a time. It should be dust proof when shut, for this dust must not be inhaled as it will make one sick. Care must be taken not to let animals or fowls eat the wheat after treatment as it is poisonous. The wheat should be all ready for seeding when so treated.

KENNEDYVILLE

Mr. Harry Wallis and uncle, Mr. Copper, of Baltimore, spent the week-end with his mother Mrs. Pearl Walls.

Mr. and Mrs. Ralph VanDyke, of Galena, spent Sunday with his parents, Mr. and Mrs. Thomas VanDyke.

Mr. Howard Pennington and Miss Mary Anderson spent Sunday with Mr. and Mrs. Raymond Hill.

Miss Edith Walls is visiting relatives in Baltimore, Md.

Mr. William Anthony is quite sick at his home near town.

Mr. William Anthony is quite sick at his home near town.

Mr. and Mrs. W. S. Hurlock and Mrs. Rachiel Hill spent Wednesday with Mrs. Ada Hitch in Queenstown.

Miss Reba Spencer is spending sometime with her parents.

Mr. and Mrs. Henry Boggs and Mr. and Mrs. Freeman spent Sunday in Lepsic and Hartley, Del.

Mr. William Dempsey and Mr. John Hessner attended the races in Havre-de Grace on Tuesday.

Miss Mary Wiltbanks returned to the Hahneman hospital, where she is in training, on Thursday after spending sometime with her parents.

Mrs. Wiltbanks many friends are glad to know she is able to be about the house again.

Quite a number attended the Carnival and parade on Tuesday evening at Chestertown.

Mr. William Urie returned to his school on Tuesday after spending his vacation with his parents Dr. and Mrs. Urie.

Mr. and Mrs. Frank Hill and children, of Baltimore, spent the week-end with Mr. and Mrs. Harry Hill.

Miss Mary Bailey, of Baltimore, is visiting Mrs. M. Pennington.

The Ladies of the M. P. Church will hold a Supper and Bazaar in the near future.

MONEY TO LOAS

IN SUMS TO SUIT ON GOOD REAL ESTATE.

JOHN D. URIE, Atty.

MILLINGTON

The regular monthly meeting of the Ladies' Aid Society, of Asbury M. E Church, was held on Thursday evening of last week in the Sunday room of the Church.

The Mount Vernon Literary Society, of Millington High School, held its first meeting this term, last Friday, Sept. 25, in the school auditorium. The following officers were elected to serve during the school year:

President, Pauline Comegys; vice-president, Helen Higman; Corresponding Secretary, Emma Jones; Recording Secretary, Mildred Neal; Treasurer, Frances Turner; Sergeant at Arms, Carlton Wallen; Historian, Frances Shahan; Critic, Frances Turner. The members of last year's debating team, who won both the negative and affirmative sides of the debate on Child Labor Question, received their medals last Friday morning during assembly excersises. Medals were presented to Emma Jones, Mildred Neal, Frances Turner and Helen Tyler.

Mrs. R. E. Feddeman and Mrs. Elizabeth Collins are spending the week-end with friends in Baltimore.

Mr. Max Hankin and son spent last Friday in Philadelphia.

Mrs. Winnie Cashner returned last Sunday to her home in Harrisbury, Pa. after spending several weeks with her mother, Mrs. Mary Bailey.

Mrs. James Moore was the guest last week of Mr. and Mrs. Morgan King, near Middletown, Del.

Mrs. Henry M. Tonkin and little son, Henry, Jr., of Wilmington, are visiting their aunt, Mrs. L. A. Hurtt.

Mr. S. T. Pippin and family, of Philadelphia, spent the week-end with his wife's parents, Mr. and Mrs. J. E. Hurlock.

Mr. James Pennington, of Baltimore, was the guest last Sunday of his parents, Mr. and Mrs. Liston Pennington.

Mrs. Peter Garber, of Carlisle, Pa., and Mr. and Mrs. Mark Garber, of Harrisburg, Pa., visited the latter's grandmother, Mrs. Mary Bailey, last Sunday.

Mr. Henry M. Tonkin returned last Tuesday to his home in Wilmington, after spending a few days with his aunt, Mrs. L. A. Hurtt.

Mr. Fred Lee is improving his property on South Crane st., with a fresh coat of paint.

Miss Florence returned last Wednesday to Baltimore, after spending three months with her mother, Mrs. S. S. Comegys.

Mr. and Mrs. George Curlett and little son, John, were guests last week of relatives in Elizabeth, N. J.

Capt. Albert Willis, of the Ericsson Steamboat Co., visited his aunt, Mrs. F. C. Numbers, this week.

Mr. and Mrs. Joseph Moffett, of Chester, Pa., spent the past week-end with her parents, Mr. and Mrs. John Kulley, near town.

Miss Mary Feddeman, of Baltimore, spent last Sunday with her parents, Mr. and Mrs. R. E. Feddeman.

GALENA

Mr. and Mrs. Frank Gale and children, of near Washington, D.C., spent a few days with his parents Mr. and Mrs. Walter Gale.

Miss Mattie Whitaker, of Wilmington, spent the week-end with Mr. and Mrs. Earnest Hicks.

Miss Donahue, of Wilmington, spent the week-end with relatives in town.

Mrs. Catherine Hyland is spending the week with Mr. and Mrs. John Barnett, of Atlantic City.

Mr. and Mrs. Alvin McCauley spent Sunday with Mrs. Eva McCauley.

Mr. and Mrs. Richards, of Bears Station spent Sunday with Mr. and Mrs. Chester Davis.

The Willing Workers Class held their monthly meeting at the home of Mr. Melvin Jarvis on Tuesday evening.

Mr. and Mrs. James Caldwell, of Kennedyville spent the week-end with Mr. and Mrs. Henry Caldwell near town.

Mrs. Joseph Braddock and son are spending the week with her mother Mrs. James Davis Sr.

Little Miss Margaret Walters spent a few days with her aunts in town.

Rev. O. T. Baynard and wife, Mr. and Mrs. Merritt Ford spent Thursday with Mr. and Mrs. Pawell Ford, of Marshallton.

Mrs. Josephine Cannon is spending the week with Mr. and Mrs. Edward Cannon, of Camden, N. J.

Mrs. Barnard Jones and daughter Emily Louise, of Highland Park, N. J., is spending sometime with her pareuts Mr. and Mrs. S. G. Caldwell.

WORTON

Mr. and Mrs. B. F. Rash, Mrs. James Matthews and Mr. Morris Cooper spent the week-end in Wilmington.

Mr. and Mrs. Carroll Loller and son, Mr. and Mrs. John Duyer and Clara spent last Sunday with Mr. and Mrs. Harold Crew, of North East.

The Ladies Aid met at the home of Mr. and Mrs. Lester Carter on Thursday.

Mr. Rasin Gears, who was operated on at Mercy Hospital, is home and doing fine.

Mrs. S. C. Loller has been visiting friends in Baltimore.

Mr. and Mrs. John Hickman, Jr., Mrs. John Hickman, Sr., Miss Gladys and Billy Hickman spent Wednesday with Mr. and Mrs. Preston Crowding.

Mrs. William Hadaway and daughter, Virginia, of Baltimore, visited Mrs. Harry Williams on Sunday.

Mr. Howard Keenan has accepted a p[illegible]

Wandering Jew One of Oldest Legends

The story of the "Wandering Jew" is one of those old legends that has been handed down from the ages, and every one is at liberty to form his own judgments as to its truth. As to its origin, tradition says that Kartaphilos, the doorkeeper in the Judgment hall, in the service of Pontius Pilate, struck our Lord as he led him forth, saying, "Get on faster, Jesus," whereupon Jesus replied, "I am going, but thou shalt tarry till I come again." Another legend is that Jesus, pressed down with the weight of His cross, stopped to rest at the door of Ahasveruerus, a cobbler. The craftsman pushed him away, saying: "Get on! Away with you! Away!" Our Lord replied "Truly I am going, and that quickly, but tarry thou till I come." A third legend says it was the cobbler who haled Jesus before Pilate, saying, "Faster, Jesus, faster." Still another legend says that Kartaphilos was baptized by Ananias some time after the crucifixion, receiving the name of Joseph. At the end of every 100 years, he is said to fall into a trance and waken up a young man of about thirty. There are also German and French legends about the "Wandering Jew," and many romances have been written on the subject, the most popular, perhaps, being Eugene Sue's story, "The Wandering Jew."

Gas Masks for All Animals in Warfare

Carrier pigeons, horses, mules, dogs and other animals used by the army in wartime will be equipped with gas masks should the United States ever engage in another war in which poison gases are used, according to an announcement made at the headquarters of the Second corps area, Governors island, the New York Times reports.

The mask for horses and mules consists of a cheesecloth bag which covers the nostrils and upper jaw only. Horses and mules breathe only through the nose, so that it is not necessary for the mask to cover the mouth. Their eyes need no protection against tear gas, as they have no tear ducts. The mask is designed to be carried in a satchel on the breast harness when not in use.

The dog mask is built on similar lines, except that it covers both upper and lower jaws. Carrier pigeons will not be equipped with masks while in flight, but will be protected from chemical agents by a special gas cover completely surrounding their transport cages.

Death in the Waters

The overflow of a river in consequence of excessive rainfall is the most familiar type of flood, but there are many others, says Nature Magazine. Low-lying coasts of the ocean are often inundated by so-called "tidal waves"—which have nothing to do with tides in the ordinary sense of the term.

Some of these waves are due to earthquakes, others to storms. In the Lisbon earthquake of November 1, 1755, 60,000 people were drowned by a wave eight feet high that advanced from the sea.

The most destructive storm waves have occurred along the coast of the Bay of Bengal. The one of October 7, 1737, is said to have risen 40 feet in the River Hugli, sweeping away 300,000 souls. The Calcutta cyclone of October 5, 1864, caused the drowning of 48,000 people.

In the terrible Backergunge hurricane of 1876 the water rose from 30 to 40 feet in less than half an hour during the night of October 31-November 1, and 100,000 persons perished.

One on the Pastor

The good parson was a little absent-minded, and somewhere or other during the day, possibly at the barber shop, he acquired a hat that looked very like his, but belonged to some one else.

That evening he dined out and when the guests were leaving the host accompanied them to the door.

"This is yours, is it not?" said the host, picking up the parson's hat.

"Yes," said the parson, "that is mine."

There was a queer smile on the host's face as he handed over the headgear. For pasted in the crown thereof was a card bearing this legend, meant for all and sundry: "No, my friend, this is not your hat!"

Obedience

I do not know anyone who makes us feel more than Milton does the grandeur of the ends which we ought to keep always before us, and therefore our own pettiness and want of courage and nobleness in pursuing them. I believe he failed to discern many of the intermediate relations which God has established between Himself and us; but I know no one who teaches us more habitually that disobedience to the divine will is the seat of all misery to men.—F. D. Maurice, in "The Friendship of Books."

These Sadder Days

On the whole, these are much sadder ages than the early ones; not sadder in a noble and deep way, but in a dim, wearied way—the way of ennui, and jaded intellect, and uncomfortableness of soul and body. Not that we are without festivity, but festivity more or less forced, mistaken, embittered, incomplete, not of the heart. And the profoundest reason of this darkness of heart is, I believe, our want of faith.—Ruskin.

WINS FORESTRY PRIZES

Maryland People Find They Have Trees Well Worthy Of Notice

The Maryland Forestry Association has announced the prize winners in the State-wide tree contest as follows: First prize, $25 to D. Fillmore Lankford, Princess Anne, Maryland, for his pecan tree, the largest of its kind in the State, measuring 124 feet in height, with a spread of 130 feet, and a circumference at 1 foot from the ground of 21 feet 1 inch and at 4½ feet it is 14 feet 6 inches; second, $20 to Mrs. W. J. Starr, of "Hope House" near Easton, Maryland for an English yew, measuring 8 feet in circumference 1 foot from the ground also 8 feet at 4½ feet from the ground. It is 41 feet in height with a spread of 49 ft.; third, $15 to James E. Steuart, of Mt. Steuart below Annapolis, for a white oak tree measuring 99 feet in height, with a spread of 114 feet and a circumference at 1 foot from the ground of 34 feet 6 inches and at 4½ feet it is 22 feet 6 inches; fourth, $10 to J. Harris Franklin, of Sudley for a black oak tree standing on the property of, Miss Elizabeth Murray near Cumberstone and measuring 32 feet 11 inches in circumference at base, 21 feet 10 inches in circumference at 4½ feet from the ground. It is 98 feet high and has a spread of 123 feet; fifth, $5 to Mrs. Georgie C. Wilson, Landover, Maryland for a white oak tree measuring 85 feet in height, with a spread of 96 feet and a circumference at 1 foot from the ground of 38 feet 7 inches and at 4½ feet it measures 25 feet 1 inch.
