Install Oil Burners In Furnaces

Why worry with coal for your furnace with its uncertain heat, soot, ashes and constant work and bother, when you can have an oil burner INSTALLED COMPLETE FOR LESS THAN $200.00 with a positive guarantee of heating satisfaction. An oil burner is one of the most essential of all modern home conveniences.

We have heated our large frame house for the past two years with an oil burner in a steam furnace with perfect satisfaction. The owners of ten other homes in which I installed burners like ours the same fall are enthusiastic over their oil burners, and my wife says she would not take a thousand dollars for ours if she could not get another like it. She never has to bother with the furnace when I am away from home or worry over having plenty of heat all the time. It is practically noisless and the oil is very little if any more expensive to use than coal. No janitor is needed to tend the furnace.

I can install for you and guarantee it to give you heating satisfaction, if, after an examination, find your conditionns suitable for oil heating. Phone or write me, giving size of house, make of furnace and average amount of coal used in a season, and I will help you to secure satisfactroy heat if possible.

ESSA... KNOCKERS

Webster s... that a knocker is a species of cockroach. This perhaps is a little too rough, and it appears that a more charitable definition would be that it was a male or female of the genus homo, who viewed life with an eye glued to the wrong end of a telescope, and who magnifies the distortion in an attempt to describe it. In fact, it might be said that they were suffering from a sort of ironic degeneation of the brain and their noodle was filled with hardware instead of gray matter. Knockers are often responsible for heay losses and many heartaches but as a rule, they are only irritating and not particularly dangerous, owing to the fact that their game is understood. In such cases the damage they do might be likened to that done to a block of granite when it is struck a violent blow with a downy feather from a humming bird. A Bolshevik is a good illustration of a knockers, although, again to be liberal, it must be stated that all knockers are not Bolsheviks. Don't dub a man a knocker however, simply because he disagrees with you, for he might have advance information. Some apples are ripe when green.

The hog cholera game has its knockers though it must be admitted that it isn't much to knock about. We have the guy who always disputes a diagnosis of cholera by insisting that the trouble is "Black Tooth," or that "the oles in the fore-legs are stopped up," etc., etc. Then there is the individual who claims that the idea that scraps of pork might be infectious is all rot. If this party happens to own hogs, his knock usually proves a boomerang, for sooner or latter he gets his name in the record of hog cholera outbreaks. Then there is the party who holds forth at the country store in the evening, and insists that all effort to prevent hog cholera is foolishness, for "it just comes." These, as well as persons who cnsider it utterly foolish to bury carcasses of hogs that died of the disease because God made buzzards to dispose of them are all more or less responsible for much of the loss that the swine industry suffers each year from cholera.

TO FIGHT RATE INCREASE

FARM BUREAU WILL OPPOSE THE EFFORTS MADE TO INCREASE THE COST OF SHORE FREIGHT

The Maryland Farm Bureau Federation, through its secretary-treasurer, M. Melvin Steuart, in co-operation with the Salisbury-Wicomico Chamber of Commerce, of which W. T. Gardner is traffic manager, and the county Farm Bureaus of the Eastern Shore of Maryland, for the second time within a few months has entered a fight to prevent an increase in freight rates to points on the Eastern Shore of Maryland, Delaware and Virginia. It will be remembered that some time ago the transportation lines serving this territory, filed supplements to its tariff of freight rates proposing an increase in all its class rates. Recently these carriers have, through the Truch Line Association, asked for an increase in the commodity rates as affecting petroleum and petroleum products to points on the Eastern Shore. This latter increase as been passed by the association and by the general freight agent of the Pennsylvania Railroad with utter disreguard for the protests that were made. Both of these cases are now before the Interstate Commerce Commission and a hearing on the class rates case was held in Salisbury on October 12, when representatives of the various Eastern Shore County Farm Bureaus were present to testify. The spplement docket has been suspended by the I. C. C. until January 20th, 1926. Attention is being called by the State Farm Bureau Office to the fact that both these proposed increases mean increases in the cost of producing farm crops, in the cost of living, automobile travel, etc.

ORPHANS' COURT.

KENT BODY BUSY WITH UNUSUAL AMOUNT OF IMPORTANT BUSINESS

Tuesday, October 20th, 1925, court met persuant to adjournment. Present, Hon. Edward A. Scott, Chief Judge; Hons. J. Henry Thompson and W. K. Hudson, Associate Judges.
