READY FOR DUCK SHOOTIMG

North of Kent the weather has been much more stormy and the temperatures have been considerably lower, with reports of heavy winds along the northern lakes. These conditions have caused the fowl to start their winter migrations, which in part account for the flocks of wild geese and the ducks which are feeding along the rivers and of the Bay.

Some persons reported that a large flock of geese passed over Easton last Saturday which contained fifty or more, an unusually large flock even in migratory flying. The gunners report ducks in the Choptank River and the Bay in great numbers and that the winds caused hem to fly into the feeding grounds most of the evening. The season will open here on Sunday, November 1.

KENNEDYVILLE

Mr. and Mrs. Robert Young spent Sunday with relatives in Baltimore.

Mr. Robert Kennedy, Miss Mary Robinson and Mrs. William Cliff and daughter were Baltimore visitors last week.

Mrs. Henry Boggs spent Friday in Wilmington, Del.

David Nickerson attended the aeroplane races at Bay Shore on Monday.

AGRICULTURE PROFITABLE

YEAR DRAWING TO CLOSE SHOWS THAT TILLERS OF SOIL ARE GRADUALLY COMING INTO THEIR OWN ONCE MORE

Agriculture has been fairly profitable this year and the improved purchasing power of farmers will do much to uphold general economic well-being through the winter, the United States Department of Agriculture declares in its October report on the agriculture situation. The department points out, however, that while conservative julgmnet of the recovery of agriculture is warranted, farm prosperity can be as easily over-rated as depression.

"It is a splendid harvest," the department says. "Not bumper yields out production well adjusted to reasonable needs. The two great money crops, cotton and wheat, are now long where some idea can be gained of their value. Cotton apparently stands to bring its producers an income of approximately $1,500,000,000, which is about like last year, and wheat producers apparently stand to receive about $1,000,000,000 which is also near or slightly below last year.

"These two leading crops probably index the general crop income. Agricultural income will not be greatly in excess of last year, but the point is that this is the second fairly profitable year. The season will go a long way to level up regional conditions. The Corn Belt along with the dairy and diversified East has been slow to feel the stimulating current of revival, but now the rising prices of hogs and cattle together with a seasonably good corn crop mean some profit in the Corn Belt The slowly strengthening prices for dairy products plus higher potatoes and minor cash crops promise somewhat better income for the East. The whole agricultural map thus slowly emerges from economic shadow."

Approximately twelve hundred bushels of Mammoth Red wheat grown by four Queen Anne's county farmers this year were distributed for seed purposes, reports County Agent E. W. Grubb. About half of the quanity was purchased by the Dorchester County Farm Bureau and the remainder was sold to Queen Anne's county farmers. While the wheat was not certified, it was of good quality, says Mr. Grubb, and will serve a fine purpose in wheat improvement.

ALL WORN OUT?

So Was Mrs. Walters Who Tells Her Experience.

Are you tired all the time; worn-out night and day? Does your back ache as if it would break Do you suffer dizziness, headaches, rheumatic twings or distressing udinary disorders. You have good cause, then, to be alarmed about your kidneys. Do as many of your townfolks recommend, Use Doan's Pills—a stimulant diretic to the kidneys. This Chestertown case is convincing:

Mrs. J. C. Walters, 526 W. High St., says: "I had a tired, dull ache in the small of my back and often sharp pains went through my kidneys and I could hardly drag myself around. The constant, bearing down pain took my strength and I felt tired and worn out all the time. Headaches and dizzy spells also bothered me and my kidneys acted irregularly. After using Doan's Pills from Hudson's Drug Store my kidneys were in good order and the other signes of the trouble left."
