Lacq
HOUSEHOLD LACQUEROID

A Sensational Discovery in Household Finishes

Never before in the history of household finishing has there been a product like Lacq—a finish so beautiful, so durable, and so easy to apply. Lacq is not paint nor varnish, but an entirely new kind of finish, made in all colors for floors, furniture and woodwork, that

It was the first of a series of games, the second of which will be played on the Chestertown alleys next Thursday evening. Gus Cannon was high-gun for Centreville, scoring an average of 155 pins in the three games. LeCates captured top honors for Chestertown an average score of 146.

THE BETTERTON IS DAMAGED

Valiant work by officers and members of the crew of the Baltimore-Ericsson Line steamship Betterton saved the ship from destruction after fire was discovered in the hold early Saturday in Philadelphia. The boat came off the ways of the Philadelphia shipyard last Tuesday after she was rebuilt following a fire that destroyed its upper structure at Milford, Del., last year. After last year's fire the hull of the boat was bought by its present owners. After nearly two hours the flames were extinguished, but not until the whole lower interior of the boat was burned out. Flames also damaged the roof of the dock house. The Betterton was built in 1924 and is not equipped for carrying passengers. It is used to make daily trips between this city and Salem, N. J.

CRABS PLENTIFUL IN TALBOT

Crabs in the waters of Talbot county were scarce during the summer, as most crabbers only caught a barrel a day, but at this time crabs are more plentiful than they have been for several years. The crabbers of St. Michaels, who crab in Miles River are reaping a harvest. One man last Friday came in with twelve barrels of crabs and received $5 a barrel for them; another man came in with eight barrels, while a third man caught seven barrels. A number of them caught 3, 4 and 5 barrels. Mr. James Clark brought to St. Michaels the largest crab ever seen there. It measured 24½ inches from the tip of one claw to the tip of the other claw; and from one tip of the shell tothe other, it measured 11 inches. It weighed exactly two pounds and looked as large as a lobster.
