JANVIER

Alan Joiner, Winfield Usilton.

Turner's Creek School Opened

Action was taken by the Board of County Commissioners of Kent County, Maryland, at their meeting held December 29, 1925, by which it bound itself to have the lighting arrangements of the new Turner's Creek School building erected for them last October, changed during the summer of 1926, to make them meet the requirements of the law. The resolution adopted by the county commissioners in reference to this matter was presented to the Board of Education of Kent County, Maryland, at their meeting held on Tuesday, January 5th, 1926. Following is the minute of their action:

"The Secretary reported that the specifications and drawings of the one-room school building erected on the old school site in the Turner's Creek district last October by Messrs Stavely and Bowers of Lynch for the Board of County Commissioners for Kent County, Maryland, were received from the Commissioners on Tuesday, December 29, 1925. He presented to the Board these papers and the following communication which had been received on December 31st, 1925:

"This is to certify that the following resolutions is spread on the minutes of December 29th, 1925, of the Board of County Commissioners:

'Resolved, that should the Board of Education accept the Turner's Creek School House and use the same for school purposes from January 1st, 1926, the County Commissioners will appropriate sufficient funds to make the necessary changes in the lighting system of the building, said changes to be made during the summer of 1926.'

(Signed) JOHN MEDDERS, Clerk,
To County Commissioners.

The Secretary reported also that although the building had been completed the early part of November, 1925, the Board of Education had not had any communication from the County Commissioners in writing to inform them that the building was ready for occupancy until the above papers had been received.

The members of the Board of Education examined the specifications and drawings and found that neither the dimensions of the class room nor the lighting arrangements met the requirements of the law as shown in the following table of comparison:

Specifications Used	Required Specifications
Length of room 19 ft.	Length of room 26 ft.
Width of room 17 ft.	Width of room 22 ft.
Height of ceiling 9 ft.	Height of ceiling 10 ft. 8 in.
Lighting, 3 windows in each side and 2 windows in one end of class rooms.	Lighting, windows shall be located on one side preferably east or west (elevated half windows in the rear being permitted.)

It was decided that the size of the classroom would probably meet the needs of the Turner's Creek district so long as it would be necessary to continue a one-room school in that community, and on motion, duly seconded, the Board unanimously adopted the following preamble and resolutions:

"Whereas, the Board of County Commissioners for Kent County, Md. has agreed to correct the [illegible] arrangements of the new Turner's Creek school building during the summer of 1926 to comply with the requirements of the school law, and

"Whereas, it would probably cause an unnecessary expenditure of public funds to require said Board of County Commissioners to have the new Turner's Creek School building altered to meet the requirements of the law with respect to the length and width of the class room and the height of the ceiling, in addition to the change in lighting, and thus completely correct their mistake, therefor, be it

Resolved, that the Turner's Creek school building, as turned over to the Board of Education of Kent County, Maryland, by the Board of County Commissioners of Kent County, Maryland, be and is hereby accepted solely on the following conditions:

1. That the Board of County Commissioners have the necessary alterations made in said building to meet FULLY the requirements of the law with respect to the lighting of NEW one-room school buildings before the time for the opening of the white schools in September, 1926.

2. That this action of the Board of Education of Kent County, Maryland, meets the approval of the State Superintendent of Schools.

Resolved, further, that unless the lighting alterations referred to above are made during the summer of 1926, the Turner's Creek school will not be opened next September and the responsibility for that condition will again be thrown upon the Board of County Commissioners where it belongs."

The school has been opened and will be used as it is until next summer provided it is found that it is the opinion of the State Superintendent of Schools the above action of the Board of Education complies with the law so far as existing conditions will permit.

LOUIS C. ROBINSON,
County Supt. of Schools.
