The Credentials of BUICK

G-15-25

EXAMINE the credentials of the builder of any car you think of buying. Be sure there is stability behind the car. Be certain that it will not some day join the ranks of the million and more unmarketable "orphan" cars whose builders have quit.

Buick motor cars are backed by vast resources of men, equipment, investment *and success*. The Buick factory is a mile and a half long. The Buick engineering staff is the largest in the service of any motor car manufacturer. The Buick sales and service organization numbers 4000, with millions invested in showrooms and Authorized Service Stations all over America.

And Buick leads in public preference, the indispensable factor in motor car success. For eight consecutive years, the public has invested more money in Buicks than in the cars of any other member of the National Automobile Chamber of Commerce.

Not one of the million "orphans" on the roads today was built by Buick. *None ever will be!*
