HOW THE PENNSY HELPS

The Pennsylvania Railroad company has rendered considerable aid to many towns along its steel highways. During a recent fire at Townsend, Del., at a time when the conflagration seemed almost beyond control, because of the short water supply, the Pennsylvania R. R. Co., came forward with a locomotive attached to a tank holding about 5500 gallons of water. This was used and a continous supply of water was brought by this means. up at Massey, in Kent county, the town has been allowed to connect a large pipe to the railroad compan's storage tank, which will save them water supply in time of fire. This tank holds 35,000 gallons and would be a big help to the town. This spirit should not be over looked and we feel sure the Massey people greatly appreciate it.

Don't Neglect That Stubborn Hacking Cough

It is not only dangerous but entirely unnecessary to let a persistent, hacking cough rob you of sleep and strength. For through a very simple treatment you can get almost instant relief, and very often break the most stubborn cough completely in 24 hours.

This treatment is based on the famous prescription known as Dr. King's New Discovery for Coughs. You simply take one teaspoonful at bed-time and hold it in your throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly removes the phlegm and congestion which are the *real cause* of night coughing. So the coughing quickly ceases and you sleep right through undisturbed.

Dr. King's New Discovery is for coughs, chest colds, sore throat, hoarseness, bronchitis, spasmodic croup, etc. Fine for children as well as grown-ups—no harmful drugs. Economical, too, as the dose is only one teaspoonful. At all good druggists. Ask for
