

Quick Way to End Dangerous Cough

Why let a dangerous cough hang on when you can, through a simple treatment, get speedy relief and often break it up completely in 24 hours?

This treatment is based on the famous Dr. King's New Discovery for Coughs You take just one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. It has a double action. It not only soothes and heals irritation, but also removes the phlegm and congestion which are the *real cause* of the coughing. So the worst cough quickly disappears.

Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists Ask for

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not odered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.

NATIVES

By Edgar A. Guest

We see the deed and not the thought behind it,
The grim results and not the motive sweet;
And yet perhaps if we would look to find it
We'd catch some hint of glory in defeat.
We see the broken treasure little fingers
Reached high to clutch, and toppled to the floor;
Yet in the child mind this injustice lingers:
We never asked just what she wished it for.
She'd reached for it because it was so pretty,
I'll serve my mother's tea on that," thought she;
And so for love she blundered. Oh, the pity!
The broken dish was all that we could see.
Deeds and results our actions are commanding,
But could we know the motives hidden deep
And read the minds which cry for understanding,
We'd blunder less, and more of love we'd reap.

When the most glamourous picture is over—and you come outside to the bright lights and the brighter laughter of friends —have a Camel!

WHEN the exciting scenes are over. And you leave the great theatre thrilled at what you've seen. When, as the organ peals forth its rolling music, you come outside with jovial, laughing friends—*have a Camel!*

For nothing else on earth could be so refreshing among the great white lights as Camel. Camel adds of its own bright goodness to the enjoyment of every pleasing scene. Camel is the hale friend and companion for eventful days and carefree evenings. Here is something worth writing in words of gold: "Camels never tire the taste, or leave a cigaretty after-taste, no matter how freely you smoke them." And what's more, you can't buy choicer tobaccos or more perfect blending, no matter how much you pay.

So, this night as you leave for the brilliant scenes. And when the big show is finished and you've seen life in its tense and purposeful moments—know then the mellowest fragrance that ever came from a cigarette.

Have a Camel!

No other cigarette in the world is like Camels. Camels contain the choicest Turkish and domestic tobaccos. The Camel blend is the triumph of expert blenders. Even the Camel cigarette paper is the finest—made especially in France. Into this one brand of cigarettes is concentrated the experience and skill of the largest tobacco organization in the world.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.
