AT ZERO, BUICK Automatic Heat Control means easy starting and smooth running immediately. In every temperature, from Key West to the Canadian border, this exclusive Buick feature insures gasoline economy, *automatically, and at all speeds.*

Buick *mechanical* 4-wheel brakes make secure, footing that is insecure. Through two winters and two summers half a million Buicks have proved the all-year dependability of the Buick type of brakes. Their *direct, mechanical action* is not affected by weather changes.

And not even a blizzard will harm the Buick Valve-in-Head engine. *Every* point where metal would rub metal is lubricated under pressure. A flood of oil is forced everywhere, as soon as the engine starts.

You will not find another car today, regardless of its price, with its performance so perfectly protected. Winter or summer, a Buick is better!
