The conference agreed to pay $700 a year toward the endowment fund for retired ministers and widows and orphans of deceased ministers of the Wilmington Conference to cover a period of four years, making a total of $2800.

FEARS ICE MENACE AGAIN

PORT DEPOSIT MAY BE IN GRIP OF ICY FLOOD AT ANY TIME

Apprehensive that the ice gorge in the Susquehanna off Port Deposit will cause the water to back up and flood the town, citizens appealed Tuesday of this week to Governor Ritchie to send an iceboat to break the sheet ice at the river mouth.

They beleive that if the sheet ice is broken from the bridge piers at Havre de Grace the ice gorge, cemented by freezing weather into a solid barrier. will float down the river and out into the bay.

In the event of failure to get an iceboat, citizens tonight are discussing he advisability of asking the War Department to detail airplanes from the Aberdeen Proving Grounds to bomb the ice.

At 2 o'clock Tuesday afteroon the emperature in Port Deposit was 35 degrees. T. J. C. Hopkins, who appealed to Governor Ritchie for the iceboat on behalf of the citizens of the town, told the Governor that the time now was opportune for ice-breaking operations.

The real danger, as seen by the Port Deposit citizens, is that a thaw will bring great volumes of water from the upper stretches of the river. Should his flood descend before the ice barrier that extends across the river opposite the town is removed, the water, it is leared, would overflow the river banks and sweep through the streets.

Reports of conditions along the upper river are not encouraging. An ice gorge extends for fifty miles from a point near Safe Harbor to the railroad bridge at Harrisburg. At Columbia Pa., the water was nine and a half feet bove normal Tuesday morning but fell fourteen inches during the day.

"THE SECRET OF FIFTY YEARS OF MARRIED LIFE" BY KATHLEEN NORRIS, NOTED WOMAN WRITER, IN SUNDAY'S BALTIMORE AMERICAN.

WILL NOT ABANDON CORSICA

GOVERNMENT WILL CONTINUE TO HAVE SUPERVISION OVER WATERWAY

Corsica river will not be abandoned by the United States Government. Official announcement to this effect was made by Major C. R. Pettis, district engineer for the Rivers and Harbors Commission, following a survey of figures compiled by T. Rigby Valliant, in cooperation with the Queen Anne's County Chamber of Commerce.

Congressman T. Allan Goldsborough supplemented this information with other statistical data showing the importance of Corsica river as a shipping medium.

Several months ago announcement was made that Corsica river, together with a number of other Eastern Shore waterways, was scheduled for abandonment by the Government. Subsequently information was filed showing a heavy annual tonnage of freight over his stream.

In consequence the decision has not only been reached to continue the maintenance of Corsica river, but it is regarded as probable that steps will soon be taken to dredge a deeper channel from Centreville Landing to a point near the plane of the Corsica Sand and Gravel Company.

FARMERS URGED TO TAKE CARE

STATE COLLEGE SUGGESTS THAT THEY BE CAREFUL REGARDING RED CLOVER SEED

Unless farmers can be sure of the source of their red clover seed this spring they had best plant a mixture of alsike clover and alfalfa, according to J. E. Metzger, agronomist for the University of Maryland experiment station.

There have been so many failures with red clover crops in recent years.

As a result, rather exhaustive trials have been conducted by many State experiment station in cooperation with the United States Department of Agriculture to locate the cause of the trouble, says Mr. Metzger.

Recent reports on these tests, in which seed from many domestic and foreign sources was used, show that red clover seed produced in Tennessee and Ohio gave slightly better crops than Maryland seed. Minnesota-grown seed, however, produced less than half as much as seed from nearby sources. In fact, Maryland red clover seed produced as well in Michigan and Ohio as seed grown in those States.

The tests make it clear, says Mr. Metzger, that Maryland farmers should uy red clover seed grown in Northern States and from foreign sources only as a last resort.

Seed from Maryland or nearby States is recommended whenever it is available. It it cannot be obtained rom these sources, a mixture of alsike lover and alfalfa, is suggested as likey to be more satisfactory than poor uality red clover.

BRIDGE ACROSS BAY REVIVED

That resplendent, but hitherto elusive vision of a bridge across the Chesaeake bay has emerged from the ream stage and is being discussed as a sober reality by New York and Baltimore capitalists, it was learned last week. The Baltimore firm interested in the project is one of the best-known and most conservation investment banking houses in the city and has its offices on Redwood street. Data in connection with the project is being gathered by this firm. From the preliminary survey, it would appear that a bridge could most feasibly be built from the vicinity of Bay Shore across to the Kent county shore. This would be about seven miles, it is estimated.

STILL POND

Mrs. Annie Crew has returned to her home in Chestertown after spending last week with Dr. and Mrs. L. P. Atwell.

Amidst the snow storm on Wednesday afternoon a good number attended the Ladies Aid Society at the home of Mrs. Howard Rasin.

Quite a number here are suffering with colds among those housed are Mrs. Oliver Nicholson and Son, Mrs. James Greenwood and Son, Messrs Wm. Clark and Harry Jones.

Miss Edna Hackett has returned to Baltimore, Md.. after visiting her father, Mr. W. K. Hackett.

Miss Kate Howard spent several days this week in Chestertown, Md.

Night Coughing Quickly Stopped

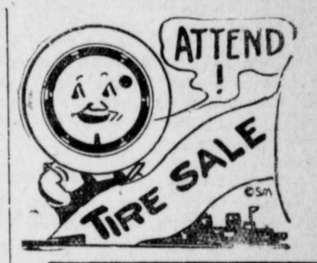

New Way Simple But Very Effective

Night coughing, with its distressing loss of sleep and dangerous sapping of strength and vitality, can now be almost instantly checked through a simple but wonderfully effective treatment that is economical, too.

This treatment is based on the famous prescription known as Dr. King's New Discovery for Coughs. For astonishing relief make this test tonight before retiring:—Simply take one teaspoonful and hold it in the throat for 15 or 20 seconds before swallowing it. The prescription has a double action. It not only soothes and heals soreness and irritation, but it quickly loosens and removes the phlegm and congestion which are the *real cause* of night coughing. So with the cause removed, coughing stops quickly and you sleep the whole night through.

The Dr. King's New Discovery prescription is for coughs, chest colds, sore throat, hoarseness, bronchitis, spasmodic croup, etc. Fine for children as well as grown-ups — no harmful drugs. At all good druggists. Ask for

When it's your favorite table at the restaurant—and with merry friends you chatter and feast in festive revel —have a Camel!

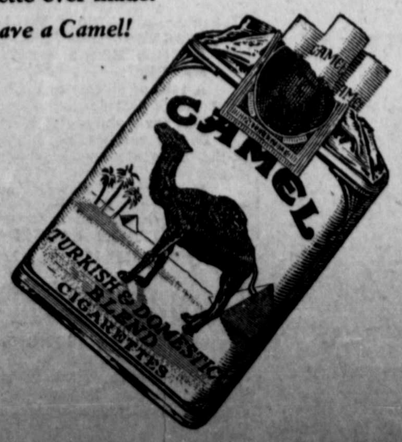

WHEN you sumptuously dine at your favorite cafe. And with joyous talk and laughter you taste the tempting things of earth. When with lilting strains of music and the primest of fine foods you feast your friends joyfully—then how welcome is that friendly saying, "*Have a Camel!*"

For Camel goodness heaps added zest to every festive dinner, shares of its own joyous taste with every delicious flavor. Camels never tire the taste or leave a cigaretty after-taste, because they are the master blend of the choicest tobaccos grown. Regardless of price, no other cigarette made is so rich and fragrant, so smooth and mellowy mild as Camel.

So this night as the famed restaurant grows gay with the sounds of merry-making and revelry. As you claim your own rightful share of the bright joys of living, taste then the flavor, the mellow fragrance of the finest, cheeriest cigarette ever made.

Have a Camel!

Into the making of this one cigarette goes all of the ability of the world's largest organization of expert tobacco men. Nothing is too good for Camels. The choicest Turkish and Domestic tobaccos. The most skilful blending. The most scientific package. No other cigarette made is like Camels. No better cigarette can be made. Camels are the overwhelming choice of experienced smokers.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.
