Answers These:

"What shall I do when I am old?"

"What would I do if I were disabled?"

"What would my family do if I died?"

These are questions that men and women ask themselves as they look into the future and as they note the increasing hazards of life.

Our First Executive

"LABOR to keep alive in your breast that little spark of celestial fire—conscience."

In these words George Washington expressed the modern conception of the word "Service" as it applies to all things, including business.

The business that does not imbue its every action and transaction with "conscience" does not really serve. And the business that does not really serve does not really thrive.

To be considerate; to deal fairly with all; to render Service in its broadest sense is the policy upon which we make our appeal for your patronage.
