MAY DEEPEN THE NARROWS.

Kent Island, lying off the Queen Anne's county shore and athwart the narrowest part of the Chesapeake Bay, will no longer be an obstacle to Delmar-Via Peninsula is the substance of a bill now in preparation by T. Alan Goldsborough, Representative in Congress from the First Maryland District. The bill provides that the United States Government dredge the channel of the Kent Island narrows to a depth of from five to seven feet. The passage of the measure not only would turn the waterway into a thoroughfare, but would mean a saving of miles of travel and many hours of time to vessels proceeding north and south.
