ARE YOU LOOKING FOR AN ASSURED INCOME?

Every thoughtful man and woman wants to arrange for investments to provide for old age.

We suggest that you consider the Annuity Plan of Washington College.

1. High Dividends are secured. The semi-annual payments of annuity provide the largest income, consistent with safety. At the death of the annuitant, the principal goes, according to the donor's wishes, either to a designated or undesignated fund of Washington College.

2. The investment-gift is safe. The $450,000 plant, and property and the good name of Washington College are behind it. The semi-annua dividend remittances will be paid as long as the annuitant lives.

3. Relief from investment anxieties and care is assured. Purchasers of the annuities in Washington College are released from further worry about reinvestments of funds, idle money, the passing of dividends or liability of loss from unsound investments.

4. Your money will work for you as long as you live and will accomplish your desires after death without the possibility of a bitter and costly contest of your will.

5. $100 and up may be thus invested in cash, estate, approved bonds and stocks.

6. This investment is safe, is not taxable, saves the worry of investment and the commission of an agent and provides a regular, fixed, and sure income for the life of the annuitant and eventually will become part of the Endowment Fund of Washington College, there to be a monument to you which will go on serving humanity forever.

7. Rates of interest offered.: 5% if you are between the ages of 50 and 60, 6% for ages 60-70, 7% for ages 70-80, and 8% for ages 80 or above.

Questions are gladly answered.

Everything in Interior and Exterior Woodwork

In Curtis double-hung (two sash) windows, the meeting rail is rabbeted, as shown below, so that it resists seven times as much wind pressure as the ordinary check rail or plain rail windows. Make sure that your windows are trademarked—

1865 CURTIS

What a Big Difference Good Windows Make

IN any house, be it a stately mansion or humble cottage, the windows are an important feature of both the exterior and interior. A house with windows poorly proportioned, or ill-designed, cannot have charm or beauty.

Curtis Window C-1024, a twelve-light design of popular appeal, is illustrated. It is but one of many designs that have made Curtis Woodwork famous. Each piece of even texture soft pine used in Curtis windows is conscientiously selected to avoid pitch, knots, blue sap and cracks.

You can have Curtis windows in your new or remodeled home at a finished cost that will be no more than you will pay for the ordinary kind. Come in and see some in our stock and get prices.

"Curtis Woodwork," beautifully illustrated, is free to builders.

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not odered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.
