BUICK
Triple Seals
Reduce Engine Wear

WAR was declared on engine wear when Buick introduced the "Triple Sealed Engine" in the Better Buick.

1. Oil Filter
2. Gasoline Filter
3. Air Cleaner

Buick first perfected the "Sealed Chassis" which barricades each operating part inside a tight-fitting iron or steel housing.

Now, the "Triple Sealed Engine" (air cleaner, oil filter, gasoline filter) has been added to the protection for Buick performance. Every possible avenue for the entry of dirt and grit is guarded, avoiding looseness, vibration, and all the other ills that dirt and grit can cause.

Because of the "Sealed Chassis" alone, Buick is a more dependable motor car. The additional protection of the "Triple Seal" still further reduces Better Buick upkeep costs.

The Better Buick offers the best in modern motor car design at a very moderate price. Come in and see the "Sealed Chassis," the "Triple Sealed Engine" and the many other superior features of this better motor car.
