GILL BROS.

Danger In Coughs That Hang-On

Neglected coughs often lead to worse trouble. Yet there is a simple method based on the famous Dr. King's New Discovery, which usually breaks the worst cough entirely in 24 hours.

Here is the method: You take just one teaspoonful and hold it in your throat for 15 or 20 seconds before swallowing it. It has a double action. It not only soothes and heals irritation, but also removes the phlegm and congestion which are the *real cause* of the coughing. So the most stubborn cough soon disappears completely.

Dr. King's New Discovery is for coughs, chest colds, bronchitis, spasmodic croup, etc. Fine for children, too—no harmful drugs. Very economical, as the dose is only one teaspoonful. At all good druggists. Ask for
