Give your pipe a chance!

SOME pipes were "born with two strikes on 'em." Just never had a chance to offer their best. You can judge your pipe only by the tobacco you put in it. If you haven't smoked P. A., your pipe hasn't had its chance. To those men who know the keenest pipe-enjoyment, Prince Albert stands out like a beacon of cheer on a moonless night.

Prince Albert has put pipes into the mouths of more men than any other tobacco that ever came down the pike . . . and has *kept* them there! Because no other tobacco is like P. A. Cool and fragrant as mountain air murmuring through the pines. Sweet as the breath of spring.

P. A. won't bite your tongue or parch your throat, because the Prince Albert process cut out bite and parch right at the outset of P. A.'s brilliant career. This means that you can hit it up with your jimmy-pipe and P. A. from the minute breakfast is over until you nestle down between the sheets at night. You not only can, but *will!*

If you're looking for proof, you needn't search beyond the nearest shop where they hand out smoke-gladness in tidy red tins marked "Prince Albert." Give your pipe a chance. Pack it with P. A. and light up. That first wonderful pull will tell you P. A. was simply made-to-order for you!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.
