BRICE'S MILL

Bake things he likes with FLAVO FLOUR. It's healthful and tissue building. There is more nutrition and a sweeter taste in FLAVO FLOUR. It is made with a new process by the most modern mill in the world. Nature's food values and the delicious flavor of the wheat are not milled out as they are by other methods. FLAVO FLOUR is milled at home from home wheat. It is pure. Buy it and patronize Home Industry.
JOSEPH BRICE, Proprietor.

TO ROTECT WILD DUCKS

All duck shooters throughout the county are thoroughly convinced that one of the main causes for the scarcity of wild ducks, especially canvisback was the poison area in the northern Chesapeake caused by explosive projectiles and bombs used at the Proving Grounds.

Thousands of ducks were killed, even though guards were kept there to frighten the birds away, and up to the present time no adequate means have been found to properly protect them.

To bring about adequate protection Representative John Philip Hill has intrduced a bill authorizing the Government to cover this poison area in the Chesapeake Bay near the Aberdeen Proving Grounds with a foot of earth.

Mr. Hill said it would cost between $65,000 and $90,000 to cover the area, which lies between Black Point and Spesutia Island. The maintenance of guards to frighten the birds away is not sufficient, he said.

MARRIAGE LICENSES ISSUED

Clerk of Court Robert R. Ayres, issued the following marriage licenses the past week.

James Andrew Duncan 23, Gladys Maude Maccahee 25, both of Wilmington, Del.

James A. Parsons 26, Marie Poole 20, both of Kent County.

Samuel B. Wheat 22, Bernice Louise Kendall 18, both of Kent County.

Wilbert Saunders, Maude Briscoe, both of Kent County.

Carl C. Doll, Aurora, Ill., Ethel Gustafson, Rock Hall, Md.

FEED COWS LIKE HOGS TO MAKE DAIRYING PAY

If the dairyman fed his cows as the hog man feeds his pigs, there would be more money in dairying, according to the Larrowe Institute of Animal Economics.

"The hog man interested in getting his pigs to marketable weight in the shortest time and with the least effort and expense has tried ration after ration for his pigs until he is now pretty close to the best ration for accomplishing the result he is after," the Institute states. "For the hog man, the proof of the feed is in the feeding. Contrast this attitude with the attitude of the dairyman. Instead of finding out what a given ration will do with his own cows in his own barns, the dairyman has continued to make up his ration on the testtube theory of chemical analysis, which has little to do with the amount of milk the cow will give. The dairyman tests out gasoline in his own car, but he feeds his cows on the ration arrived at with pencil and paper. Is it any wonder that under the standards of our present knowledge the average cow in view of her possibilities is not as good as the average hog?

While the stomach of the cow is the only true guide on what a given ration will do for that cow, there are certain charactertistic elements that every good dairy ration possesses, according to the Institute. In the first place, the ration should contain a variety of foods. It should be bulky and it should be paratable. But in the selection of his ration the dairy man who mixes his own feed is at a disadvantage to the dairyman using a ready mixed ration. There is a wide range of difference in the analysis of the ingredients or even different lots of the same ingredients that go into the making of a dairy ration, and it's not uncommon for the same dairyman's mixture to work out well one week and be a failure the next. On the other hand, the commerical feed maker through actual tests with cows and the use of chemical and mechanical means to analyze and mix the many ingredients that go into their feed, are able to make a ration that is standarized and uniform and which will give similar results under like conditions.

NOTICE TO OYSTERMEN AND LESSEES

In our bulletin of March 29 we gave notice seed oysters could be obtained from certain tonging areas, one of which was THAT PORTION OF CHOPTANK RIVER LYING SOUTHWEST OF A LINE DRAWN FROM HURST CREEK TO HAMBROOK'S BAR BEACON, AND KNOWN AS THE RESTRICTED ZONE.

This Department has decided that owng to the number of other natural oyster rocks set aside for seed purposes, it would be advisable not to include this among those where oysters could be removed and sold for seed purposes. Therefore, the area mentioned above will not be opened on April 15 as formerly advertised.

CONSERVATION DEPARTMENT

ATTENTION PROPERTY OWNERS

It is better to be glad than sorry therefore do not neglect to place insurance on your Buildings as a protection in case of a serious fire.

A TELEPHONE IN EVERY HOME

"What a peach of a day! Let's take the old bus, get the Rankins, and drive to Hillcrest."
"All right, I'll call them."
"Oh, I forgot! They have no telephone."

THE home without a telephone is out of touch with the world. The old days when people sent the small boy of the family around to deliver their invitations are gone forever. Don't miss things because you haven't a telephone!

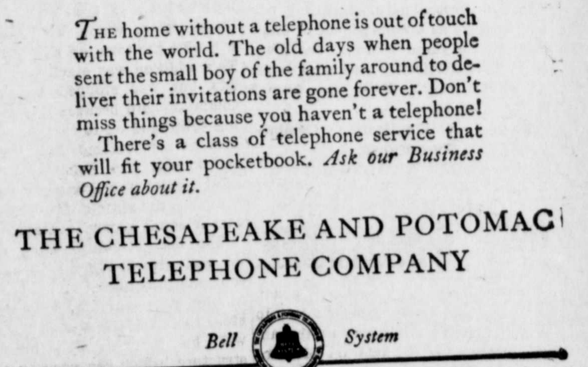

There's a class of telephone service that will fit your pocketbook. *Ask our Business Office about it.*
