MAY DAY HAPPENINGS

Plans are under way by all organizations interested in child health, for the state-wide observance of May Day, or of the days just before and following the first of May, as Child Health Day.

A pamphlet containing a suggested program for celebrations in schools, or by classes or clubs has been prepared by the Bureau ofChild Hygiene of the State Department of Health. It contains recitations, health songs, and a May Day play, for the older boys and girls, with suggestions for games and dramatized stories for the younger children. Copies of the pamphlet may be obtained by writing to the Burau of Child Hygiene, 16 West Saratoga Street.

In addition to the exercises that will be held in many of the schools on Friday afternoon, April .0, athletic events sports and games have been scheduled for each county under the direction of the State Department of Education and the Playground Athletic League. Meets for the white boys will be held on selected dates during the month of May, coming to a climax in the statewide meet in the Stadium in Baltimore City on June 11. The meets for the colored boys will take place according to scheduled plans, during April and May, with the final meet in the Stadium on June 14.

In Baltimore City, the program will be spread throughout the month. There will be special exercises in the playgrounds under the auspices of the Playground Athletic League. There will be health conferences for babies and pre school children conducted by the Bureau of Child Welfare of the Baltimore City Department of Health, and by the Babies Milk fund Association. Health plays, illustrated talks, poster making and other exercises will take place in the schools, under the auspices of the Baltimore Dairy Council; there will be radio talks for children and grownups, and the climax will come with the health festival and health pageants that will be given te latter part of the month in the Stadium by the children from the public schools under the direction of the Department of Physical Education and Hygiene.

Organizations that are cooperating in the statewide plans include the State Department of Health, the State Department of Education, Diocesan Department of Catholic Schools, Baltimore City Department of Health, The Department of Physical Education and Hygiene of the Baltimore City Schools, the State Medical Cociety the Medical and Chirurgical Faculty the Maryland Parent Teacher Association, Department of Public Welfare State Federation of Women's Clubs, State Tuberculosis Association, Baltimore Babies Milk Association, Playground Athletic League, and the Baltimore Dairy Council.

Dr. J. H. M. Knox, Jr., Chief of the State Bureau of Child Hygiene, is the State Chairman. Members of the Central Committee include Governor Ritchie, representatives from each of the above organizations, the Deputy State Health Officers, or County Health Officers, the County Superintendents of Schools, and the presidents of the County Medical Societies.

A TELEPHONE IN EVERY HOME

"What a peach of a day! Let's take the old bus, get the Rankins, and drive to Hillcrest."
"All right, I'll call them."
"Oh, I forgot! They have no telephone."

THE home without a telephone is out of touch with the world. The old days when people sent the small boy of the family around to deliver their invitations are gone forever. Don't miss things because you haven't a telephone!
There's a class of telephone service that will fit your pocketbook. *Ask our Business Office about it.*

Sitting pretty and no mistake!

LIKE the chap in the song, I'm sitting on top of the world. And it's not a bad world when you look at it from all sides. I've hit some rough spots, but managed to keep my seat. I want to let it be known that the road has been a heap smoother since I discovered Prince Albert. Here *is* tobacco!

My old jimmy-pipe and Prince Albert and I go along just singin' a song from morning to midnight. Whenever I get to feeling low, I take out my pipe, tamp a load of good old P. A. into the muzzle and light up. Old Man Trouble takes French leave the minute that wonderful smoke starts up the stem.

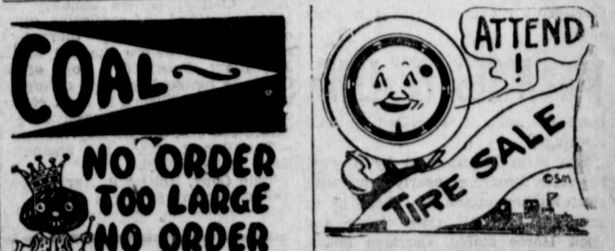

Prince Albert is friendly in spirit and friendly in fact. It never bites my tongue or parches my throat. They tell me the Prince Albert process fixed that for me and millions like me. I only know that P. A. is cool and satisfying as spring-water on a hot afternoon and that it suits me to a T.

You're welcome to this leaf out of my book. If you're not smoking P. A., you're not getting full enjoyment out of your pipe. Just get yourself a tidy red tin of Prince Albert. Load up your old jimmy-pipe and light up. Nothing complicated about that, is there? Well, that's *my* formula. It always works for *me*.

P. A. *is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.*

PRINCE ALBERT
—no other tobacco is like it!
