JUDGE JOHN R. PATTISON, of Cambridge, chief judge of the First Judicial Circuit, which embraces, Worcester, Somerset, Wicomico and Dorcester has announced his candidacy for relection. He is regarded as one of the best lawyers in the State and as a fair and impartial and competent judge.

SINCE the withdrawal of former Senator J. H. C. Legg as a candidate for State Senator in Queen Annes County, some of his friends on the shore have been considering him as a candidate for Congress in appositim to Congressman T. Allen Goldsborough. This we believe would be an unwise political move.

"Standard" Gasoline is the ideal fuel for normal requirements

ESSO is manufactured to meet the following *special conditions:*

1. For motors that knock.
2. For motors with excessive carbon.
3. For high compression motors.
4. For motors which from long use no longer develop full power.
5. For motors operating under excessive loads.
6. For any motor from which the driver demands extra power and performance.

WHY is ESSO so much better than anything else you've ever used?

Why does ESSO do away with all motor knocks; why does it literally unlock all the latent power of your motor, make your car perform in traffic, on the hills, and over the long country roads in a manner so superior that there are no previous performance standards by which to judge it?

The answer is not difficult to find. It is because ESSO is not an experiment; not a chance product. On the contrary, ESSO has been developed out of the long refining experience of the Standard Oil Company (N. J.), and has been especially designed to give just this sort of super performance.

But the proof of what ESSO is really rests in your hands.

Test it today. Test it in any way you want.

Start clean with a tankful of ESSO. Watch traffic melt away as you beat the whistle. Start cold on the longest, toughest hill you know. Watch ESSO pick up speed, go sailing over the crest in record time—clean ahead of the rest of the field. That's *exhilaration*, that's *power*, that's *speed*,—that's *ESSO*.

After this test—we'll leave ESSO to your judgment.

Red in Color. Packed with Power. Costs 5c more—worth it.

Esso
TRADE MARK REG. U.S. PAT. OFF.

What consistent use of Esso gives

1. All your motor's power —and no knocks.
2. Greater flexibility—less gear shifting.
3. Freedom from use of choke — no crank-case dilution.
4. Quick start — lightning fast.
5. Instant pick-up—quick as a cat.
6. Speed and pull for the long hard hills.
7. New and longer life to the engine.
