I've signed up with P.A. for life

TWO months ago, I would have told you that I was pretty well satisfied with my smoking tobacco. I didn't know Prince Albert then! Gee, what a lot of tricks I missed without even knowing it. Never mind. I'm making up for lost time now. My jimmy-pipe is working double shifts.

I load up the minute breakfast is cleared away and hit it up from then until "lights out." That's one of the fine things about Prince Albert. You never tire of it. Each pipe-load tastes better than the last, if such a thing is possible. I *know* I'm set for life now.

Prince Albert is cool as a dip in the lake. No matter how hard you drive it, you never burn out a bearing. It is sweet as a check in the morning's mail. Fragrant, too, like fresh-picked flowers. Fragrant in the tin, and fragrant as you smoke it. Real tobacco, *I* tell you.

Maybe you think you are all set in the matter of smokings. I wouldn't stop there. Because, if you haven't smoked P. A., your best bet is still to be collected. On my say-so, and that of millions like me, why don't you try Prince Albert? I'll guarantee you'll be glad you did.

P. A. *is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.*
