To prevent birds from eating and destroying the cherries, mulberry trees have been set out, which yield an abundance of that fruit, which is of no commercial value. Experience is said to show that where there is an abundance of mulberries the birds prefer them to cherries.

Bake things he likes with FLAVO FLOUR. It's healthful and tissue building. There is more nutrition and a sweeter taste in FLAVO FLOUR. It is made with a new process by the most modern mill in the world. Nature's food values and the delicious flavor of the wheat are not milled out as they are by other methods. FLAVO FLOUR is milled at home from home wheat. It is good. Buy it and patronize Home Industry.
