SPORTS OF WEEK

The Kent County Baseball League is causing considerable interest among the fans. With Kennedyville and Massey strengthening their teams, it looks like a good fight before the hot days of August are over.

The University of Washington, with a terrific spurt in the last eighth of a mile, defeated the Navy eight by approximately a quarter of a length in the intercollegiate regatta at Poughkeepsie, N. Y., on Monday. Syracuse was three lengths behind Navy and Pennsylvania a length and a half astern of the New York Staters. Columbia, which has ben a disappointment in varsity races for several years, beat California by a second for fifth place, while Wisconsin was only three-fifths of a second behind California. Cornell finished last, a second behind Wisconsin.

A close race for the bunting in the Eastern Shore League is now in progress. There teams are closely matched and, from all appearances, will continue close and interesting.

now... watch my smoke!

I'M STARTING the day right—with my jimmy-pipe and a load of Prince Albert. Bring on your work. Heap it up. We three are going to wade through it like a trick dog going through a paper hoop. Me and the pipe and Prince Albert—we can lick *any* job . . . like that!

No fooling, Men, P. A. is a grand little pal. It knocks trouble out in the very first round. It smooths out the wrinkles and paints a beautiful sunburst on the darkest cloud. No wonder they call P. A. the National Joy Smoke! It sure is great tobacco.

Prince Albert is as cool and refreshing as the morning plunge. Sweet as a peach, sun-cooked on the tree. Fragrant as a bridal bouquet. I like the way it treats my tongue and throat too. Never a regret, never a protest, no matter how hard I hit it up, morning to midnight.

You may *think* you're all set on the matter of smokes. I want to say right here and now that unless you have signed on with Prince Albert, you've been missing the treat of your young life. Get yourself a tidy red tin of this wonderful tobacco and see. That's a tip!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

No Ear Could Tell What You See in the Mirror—That He Plays Without Touching the Keys

The Biggest Thrill in Music is Playing it *Yourself*

And now even untrained persons can do it

Only Piano of Its Kind

IN MUSIC as in every human activity, it's your own participation that rouses your emotions most.
It's the ball you drive down the fairway yourself that stirs your blood.
It's the song that you sing yourself that touches your heart.
It's the number that you dance yourself that entrances you.
And this human trait is even more pronounced in the music that you play.
There is rapture in listening to the playing of others; but in playing yourself there's the thrill of personal creation, the hush of ineffable sweetness, and the flight of joy to heights no other music can attain. It is here you find your supreme inspiration.

We admit that it seems incredible that untrained persons can play like this—can play by roll, equal to playing by hand. Indeed it would be impossible were it not for the Gulbransen Registering Piano, the only instrument of its kind in the world.

For neither ordinary player-pianos, nor reproducing pianos can give you complete control of the keys, the same as in hand playing. The Gulbransen alone does this.

Hence you can play not "mechanical" music, but human music, with the human expression—the Time, the Touch and the Tone Volume that you yourself impart to it.

BeeBrand protects the baby!

Flies are filthy things. They carry germs and disease. They are a menace. Keep them out. You can if you use Bee Brand Insect Powder. It will kill every fly if you close doors and windows and blow it about the room. It's quite harmless to human beings. It can't explode. It's safe.
It also kills Mosquitoes, Roaches, Bed Bugs, Ants, Fleas, Water Bugs, Moths, Lice on Fowl and many other house and garden insects.
Get Bee Brand in red sifting top cans at your grocer's or druggist's. Household sizes, 10c and 25c. Other sizes, 50c and $1.00.

If your dealer can't supply you, send 25c for large household size. Give dealer's name and ask for free booklet, "15 Ways to Kill Them," a guide for killing all house and garden pests.

STOP HEAT AT THE ROOF LINE!

How to help make your house comfortably cool this summer

YOUR roof is the point of attack for the sun's burning rays all summer long.

Hot roofs result in over-heated attics. Over-heated attics mean oven-like upstairs rooms . . . . sleepless nights.

Hence the importance of stopping heat at the roof line.

Ordinary building materials, wood, roofing, etc., simply cannot do this. Heat beats right through them.

Simply line your attic with Celotex Insulating Lumber. This remarkable lumber stops heat much more effectively than ordinary building materials. And in winter it will stop furnace heat from leaking out—saving fuel.

Moreover, Celotex will make your attic into a pleasant, livable room. And it costs so little to secure these great advantages. The broad, strong Celotex boards are easy to handle and apply. Sawed and nailed as wood lumber.

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not odered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.
