A & P INCREASES ADVERTISING FUNDS

NEWSPAPER SPACE NOW BEING USED IN LARGER VOLUME BY RETAIL STORE ORGANIZATION

Announcement comes from the main offices of The Great Atlantic & Pacific Tea Company in Jersey City that the Company's advertising appropriation for the current year will show an increase of $500,000.

A&P, as it is known throughout the country, is a large and consistent user of newspaper advertising space, and the bulk of the advertising increase this year is being devoted to newspapers for the furtherance of local retail business in every community where A&P is established. A magazine campaign will also be inaugurated.

The familiar red front of the A&P store is to be seen in practically every neighborhood trading center in the larger cities, and in the smaller communities as well.

The administrative and buying organization of the A&P is world-wide. In London, England, is a purchasing office with a complete purchasing staff. Food brokers from all parts of Europe travel regularly to London to offer their merchandise to A&P. In South America, A&P maintains five coffee-purchasing offices—one at Santos, Brazil; one at Rio de Janeiro and three in Colombia. These buyers make several trips into the interior each season, 300 and 400 miles, to the coffee plantations, where they inspect and examine the coffee in the growing bean, on the trees.

In San Francisco, A&P maintains fruit and vegetable purchasing headquarters. Its salmon fisheries in Alaska are operated for the exclusive use of the Company's stores. Other representatives are scattered throughout the Orient.

Thirty-six large buildings, used as food distributing depots, are maintained at advantageous points throughout the United States. Bakers are operated in various cities. Potato warehouses and cheesecuring plants are located at strategic points. A crop of trained buyers constantly travel through domestic food-producing areas. Food chemists and laboratorians are actively engaged in testing foods.

Recently the A&P inaugurated free group insurance for its employees. At different times during the past few years A&P employees were given the opportunity of subcribing to shares of the Company's preferred stock, and last year both preferred and common were offered.

The organization is perhaps the most unique in the food retailing field today.

GULF NO-NOX MOTOR FUEL STOPS KNOCKS

Turns Mountains into Mole hills

FOR many years mechanical engineers struggled to build automobile engines of higher compression. As compression is increased the power line goes up and the fuel consumption line goes down—ordinary gasolines would not withstand this higher compression without knocks, clicks, or detonations—accumulated carbon deposits increased this compression by decreasing the size of the combustion chamber—and the audible sounds of the engine distress grew louder.

It has been our good fortune to produce a gasoline that positively eliminates clicks, pings, and knocks.

Gulf No-Nox and Carbon are Power Twins

GULF *No-Nox Motor Fuel* withstands compression to a high degree; carbon, increasing the compression of the engine, ceases to be a nightmare as long as it does not interfere with valve action. In other words, it puts carbon to work. More power and greater efficiency is thereby accomplished, resulting in greater mileage.

With GULF *No-Nox Motor Fuel* in your tank—*step on it*—you will get the story better than we can tell it.

This Guarantee goes with it

GULF *No-Nox Motor Fuel* is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—that it positively will not heat the motor summer or winter.

GULF *No-Nox Motor Fuel* is priced three cents per gallon higher than ordinary gasoline—and is worth it.
