THE SHEPHEEDESS

By Alice Weynell

She walks—the lady of my delight—
A shepherdess of sheep.
Her flocks are thoughts. She keeps
them white;
She guards them from the steep.
She leads them on the fragrant height
And folds them in for sleep.

She roams maternal hills and bright,
Dark valleys safe and deep.
Into her tender breast at night
The chasest stars may peep.
She walks—the lady of my delight—
A shepherdess of sheep.

She holds her little thoughts in sight,
Though gay they run and leap.
Se is so circumspect and right;
She has her soul to keep.
She walks—the lady of my delight—
A shepherdess of sheep.

SPORTS OF WEEK

That action will have to be taken by the members of the Eastern Shore Base Ball League seems certain. All this season there has been been a good attendance at the Easton Park and gate receipts there have always been such as to enable the visiting team to carry away a fat check. To the contrary, however, when the Easton Club is on the road the gate receipts in the other parks are insufficient to even pay expenses. Consequently the management of the club are opening their statements that unless some compromise can be made whereby the home team will get the advanage of its drawing ability, the club will not be in the league next year. All season there has been a deficit, whereas the attendance at Easton has been such that the gate receipts there would pay all expenses if a share did not have to be given to other clubs. At the present time Easton practically helps the entire league.

FISH ARE REPORTED AS BITING

Chester River fishermen enjoyed the best rock fishing for years, during the holidays. Large catches were reported from Rolphs wharf to the mouth of the river, and these reports are growing with every telling.

Rock fishing with hook and line in Chester River has been very poor for the past few years, the perch, hardhead and trout affording the principal sport. During the past winter and early spring net fishermen from Rock Hall, Tolchester and Betterton had the largest catches of rock fish for years and these fishermen reported millions of small rock fish swimming through their nets.

Rock fishing affords the greatest sport of all fishing in the Chester and if they continue to run, local angles are in for a rare treat.

According to estimate more than 1200 non-resident fishermen visited the shores of lakes, ponds and fresh water fishing streams on the Del-Mar-Va Peninula over the week end and Fourth of July holiday. These figures are based on a general check up by the Del-Mar-Va Eastern Shore Association in Delaware and from the fishing places in the Maryland counties. In Delaware alone approximately 1200 fishing licenses have been issued thus far this season to non-residents and while there can be no accurate check in the Maryland counties, based on licenses as they are not required, the majority of the fresh water fishing points reported groups which ranged from three to a dozen visitors.

—The celebration planned by the Rock Hall Progressive Association could not be held July 5 because of the sweeping rain which continued throughout the day. The only part of the program which was carried through was the patriotic address of W. F. Russell, Jr., of the Chestertown bar, delivered in Mechanic's Hall.

What a "drag" will do

A DRAG on your jimmy-pipe, loaded to the guards with Prince Albert, will give you an entirely new idea of how good a pipe can taste when you put it on the proper diet. It will revise all your notions about the grand old pastime of pipe-smoking. Make the test!

This very day, get yourself a tidy red tin of P. A. and tuck a load into the business end of your pipe. Light up and pull that wonderful smoke up the stem. Notice how cool it tastes, whether you feed it fast or slow. Notice how sweet and mellow it is. Good old P. A.!

When you open the tin, the aroma that greets you is richly fragrant . . . the breath of real, honest-to-goodness tobacco. An aromatic promise of the smoke-pleasure to come. You'll never forget that taste when you light up. Nothing else is like it anywhere.

No matter how satisfied you *think* you are, give P. A. a whirl in your jimmy-pipe. Millions of smoke-happy men will tell you that P. A. will give you more pleasure to the cubic inch than any tobacco you ever smoked. There's a P. A. sunshine-shop just across the way!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

No Ear Could Tell What You See in the Mirror—That He Plays Without Touching the Keys

The Biggest Thrill in Music is Playing it *Yourself*

And now even untrained persons can do it

Only Piano of Its Kind

IN MUSIC as in every human activity, it's your own participation that rouses your emotions most.

It's the ball you drive down the fairway yourself that stirs your blood.

It's the song that you sing yourself that touches your heart.

It's the number that you dance yourself that entrances you.

And this human trait is even more pronounced in the music that you play.

There is rapture in listening to the playing of others; but in playing yourself there's the thrill of personal creation, the hush of ineffable sweetness, and the flight of joy to heights no other music can attain. It is here you find your supreme inspiration.

We admit that it seems incredible that untrained persons can play like this—can play by roll, equal to playing by hand. Indeed it would be impossible were it not for the Gulbransen Registering Piano, the only instrument of its kind in the world.

For neither ordinary player-pianos, nor reproducing pianos can give you complete control of the keys, the same as in hand playing. The Gulbransen alone does this.

Hence you can play not "mechanical" music, but human music, with the human expression—the Time, the Touch and the Tone Volume that you yourself impart to it.
