GULF NO-NOX MOTOR FUEL STOPS KNOCKS
Turns Mountains into Mole hills

FOR years the carbon knocks, clicks, pings or detonation in automobile engines have been a menace to motor efficiency and a sore spot to the motorist. GULF *No-Nox Motor Fuel* has turned the old time carbon bugaboo into an asset, in fact it has put carbon to work.

No-Nox and Carbon are Power Twins

Compression is power—Carbon adds compression—*No-Nox* withstands compression and the combination gives wonderful motor efficiency.

GULF *No-Nox Motor Fuel* not only withstands the high compression of the modern automobile engine—but also the added higher compression caused by carbon deposits on the walls and piston head which increases with the age of the car;—clicks and knocks are eliminated—greater efficiency is accomplished—followed by more power and greater mileage.

This Guarantee goes with it

GULF *No-Nox Motor Fuel* is Non-Noxious, Non-Poisonous and no more harmful to man or motor than ordinary gasoline—that it contains no dope of any kind—that the color is for identification only—and will not heat in summer driving.

GULF *No-Nox Motor Fuel* is priced three cents per gallon higher than ordinary gasoline—and is worth it.
