P.A.

was a revelation to me!

FOR a long time, I wouldn't admit that anybody could tell me anything about tobacco. I was satisfied with the brand I was smoking. At least, I *thought* I was. And then one day, I borrowed a pipe-load of Prince Albert from a fellow passenger in the smoking-car.

To make a long story short, that experience revised all my previous notions about tobacco. The very first puff told me that I had been missing something good up till that moment. It was cool and refreshing as a breath of mountain air. It was sweet and fragrant.

I was ready to admit right then and there that you *can* teach an old dog new smoke-tricks. When the train pulled in at the station, I bought me a tidy red tin of P. A. for myself. Since then, I've thrown away enough empties to make a fair-sized tin garage.

Maybe you think that *you* are all set on a smoke-program. I just want to leave this thought with you: until you have smoked P. A., you have no idea of how that old pipe of yours can perform with *real* tobacco. Give Prince Albert a chance in your jimmy-pipe.

P. A. *is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.*
