Man's True Character Not to Be Concealed

Many people learn to mask their thoughts, and anger, chagrin, greed and spite, as well as glee, pleasure and humor may be fairly effectively hidden by the man with the "poker face."

All the same, nobody can really disguise his real nature by facial control, and those, who have learned how to read the human face as one reads a book, are able to make a very fair estimate of character by a close and shrewd inspection. It is because so many people never attempt to master the art of face-reading that the wiles of rogues are so successful and the triumph of the practiced liar so complete.

Apart from the general aspect of a face, which is determined by the bone structure beneath the skin, what really molds the features and general expression? The answer is, character.

Scientists now realize the close relation between body and mind and in nothing is this interaction more complete than in the imprint of the mind upon the face. We hear of the "legal face," for example. It is a face with a set, firm mouth, keen eyes and a powerful jaw. These characteristics are merely the result of concentration, persistence and determination.

Why is this? It is because the many minute muscles which mold the expression of a face are directly controlled by the brain.

Believes in Liberty, but No More License

For years and years I had been puzzled by that phrase of patriotic orators, "Liberty—but no license."

Then an innocent-looking friend gave me a dog. I got a dog license.

Having a dog, I decided to go on a hunting trip. I got a hunting license.

On the chase, I met a buxom rural lass. I got a marriage license.

We bought a motor car—and a motor-car license.

The lass turned out to be the possessor of expensive tastes, and finally she left me flat and bulging out on the wrong side of the ledger. I got a beggar's license.

After a few months of begging, I hope to get enough to buy a push-cart and a peddler's license.

Meanwhile, I understand what it's all about. Every night I repeat my little precept, "Liberty—but no more license!"—Kansas City Star.

Protein in Milk

Milk helps repair the wear and tear of the body. It is as good as meat for building muscle. Moreover, it is cheaper. A quart of milk will supply as much protein as seven ounces of sirloin steak or four large eggs. Milk, particularly evaporated milk, which has twice the mineral content of market milk, is one of the best and cheapest sources of lime, which is a form of calcium.

Infants and growing children need lime to build bones and teeth. It is just as necessary for adults to keep their bones in good condition. One quart of milk, or one pint of evaporated milk, furnishes as much calcium as ten large oranges, thirty-two eggs or twenty pounds of beef. Milk also is a valuable source of phosphorus and supplies a certain amount of iron.

At Least One Improvement

The phrase "Neither rhyme nor reason" has a very interesting historic origin.

A pompous and pedantic author took his ponderous book to Sir Thomas More, author of "Utopia," and asked his opinion of it. The chancellor of "Bluff King Hal" is one of the most attractive characters in our history, so gentle and sweet-tempered was he, and he let this pedantic upstart down gently by suggesting to him that he might with advantage turn his book into rhyme.

It is related that the author went away highly pleased, and, on completing his task, returned to Sir Thomas for a final verdict. "Aye, aye," said the witty satirist, "that's better. 'Tis rhyme at least now, and before it was neither rhyme nor reason."

Neuter Possessive

Originally the pronoun "his" served as the neuter singular possessive. About the Sixteenth century this began to be replaced with "it." Thus Ben Jonson wrote, "It shall fright all it friends with borrowing letters," and Shakespeare, "Go to it grandam, child." About 1600 this form, in turn, began to be replaced by "it's," with the apostrophe. Rare in Shakespeare, and not to be found in the King James Bible of 1611, this form became the common literary one by 1623. Later in the same century the apostrophe was dropped, conforming to the possessives of the other personal pronouns, and since then it has almost always been written "its."

Mysterious Spleen

There is still one bulky organ in the human body about which we know little—concerning what its function is, at least. That organ is the spleen. The English physiologist, Barcroft, pointed out recently that its use is a mystery to us even now.

The ancient Greeks, he said, are said to have improved their athletic prowess by cutting out the spleen, their argument being it was the cause of the stitch in the side that sometimes stops the best runners. This, however, does not appear to be justified by the records.

Mended "Busted" Egg

What the old story-book legend declares "all the king's horses and all the king's men" could not do by way of repairing "Humpty Dumpty," has been accomplished by an expert of the Field museum of natural history in assembling the fragments of an ostrich egg believed to be some 6,000 years old. It was found in the ancient ruins of Kish.—Popular Mechanics Magazine.

Fierce When Cornered

The wounded animal, at bay, is a fierce fighter. He thirsts for the life of the man who has harmed him. Suddenly the hunter becomes the hunted, and must defend himself against the onrushes of his maddened quarry. Much has been said and written of this man-fighting propensity, which is possessed by nearly every creature of the wilds, and always it is an animal who brings the struggle to the hunter. A bird is never mentioned in this role, although a number of species rush to the attack with the readiness of the bear or moose.

HERBERT E. PERKINS, Attorney

ORDER NISI

In the Circuit Court for Kent County
In equity No. 2269

In the matter of the Trust Estate of Elizabeth F. S. Jarrell

ORDERED, this 17th day of August 1926 by the Circuit Court for Kent County in Equity, that the sale of the Real Estate mentioned in these proceedings, made and reported by William S. Collins, Trustee, under and by virtue of the authority contained in Order of the Circuit Court for Kent County, dated March 31st, 1924, be ratified and confirmed, unless cause to the contrary thereof be shown on or before the 23rd day of October next;—Provided, a copy of this Order be inserted in some newspaper printed and published in Kent county, once in each of four successive weeks before the 20th day of September next.

The Report states the amount of Sales to be $6175.00.

True Copy, ROBERT R. AYRES, Clerk
Test: ROBERT R. AYRES, Clerk.

MR. FARMER

Do you know that within the past sighteen months the Maryland-Virginia Joint Stock Land Bank of Baltimore, through Wm. Frazier Russell, Jr., its attorney, has loaned to Kent County Farmers more than $90,000.00?

Do you know that you pay no bonuses or commissions to secure a loan through this bank?

Do you know that when you borrow $1000.00 you get a draft for $1000.00?

Do you know that every time you pay your interest you cut down the principal mortage indebtedness?

Your neighbors are getting "wise." It will cost you nothing to learn.

Write to or call upon,
