You Wouldn't Skip Every Other Shingle

That sounds like a simple statement, but it's no worse than cutting the amount of material necessary in any other way. You can't get 100% roof protection with 50% weight and area of material. In the Beaver Vulcanite Hexagon Slab, there's no skimping anywhere. It makes the wide type of weather seal essential to complete and lasting roof protection. Come in—see for yourself.

"Haste makes waste"

"I have never yet seen persons really get anywhere who were always in a hurry with never time to care for their motors—picking up gas, *all kinds*—here, there, and everywhere. They soon find this policy makes their car shy at a hill-climb — whine for second gear—pine for a rest.

"Best to make haste slowly. Play safe. Always fill up with 'Standard' Gasoline. It's the result of fifty-six years' experience—always dependable. Right handy everywhere."
