In school or out... youth demands *style*

Some youth very dear to you is about to enter a new world. It may be the girl or boy who first proudly crosses the portals of high-school: it may be the new college man or woman, or perhaps the college graduate ready to share the burden of the world's work.

In any case, only one gift will suffice. For time has wisely approved the giving of a watch both to commemorate and make more efficient these all-important days.

Be sure, however, that the movement you select is fitted in a modern case, for youth and style go ever hand in hand. Our showing includes the newest creations by Wadsworth—the acknowledged style leaders in the dress of fine watches.

HOG CHOLERA FOR KENT

Five outbreaks of Hog Cholera were reported in Kent County during September, making a total of 21 for 1926, a period of 9 months. The average number of outbreaks in Kent for the past seven years is 17.7. This shows that with 3 months yet to go our hog raisers are keeping far above the average. Of the 56 cases reported in the State, 42 were apparently due to infected pork in garbage.

897 hogs were involved in the 56 outbreaks. 110 were dead and 338 sick before the cases were reported.

Thanks to infected pork, Maryland is now getting the after clap of the extensive Central West hog cholera outbreaks. The worst is yet to come.

A colored man put in an S. O. S., for some one to examine his hogs which were sick. A diagnosis of cholera was made and it was found that garbage was being hauled from a nearby town for hog feed. Asked if he didn't know there was danger in feeding garbage, he replied, 'Yes, but this was such nice slop, boss, an' the white folks saved it 'specially for me."

One of the 'old families' at a recently developed summer resort think it impossible to be happy wthout raising a few hogs each year. The 'city folks' not only thought the piggies were 'too cute for anything,' but feared they made a convenient garbage disposal plant. The owner gave the arrangement his blessing for 'wasn't he getting his hogs fed for nothing?' Of course, the city folks didn't pick the infected pork scraps out of the garbage, and three of the piggies have gone to the happy-rooting ground via the hog cholera route.

The total pounds gained were 924¾, an increase over last year of 169¾; the average gain per child was 4½ pounds with the highest individual gain of 12 3-8 pounds. However, several children gained as much as ten and eleven pounds during their stay.

'We were fortunate in the selection of the staff, including volunteer workers, who did everything possible to make the children's stay pleasant.'

IN MEMORIAM

In loving memory of our Sunday School Class Mate, Mrs. Annie D. Durding, who departed this life three months ago.

Every death has a wonderful missing,
Though it robs us of those we love;
It draws us from our surrounding
To long for the meeting above.

No matter how heavy our losses,
No matter how great one's depsair,
Dosen't Heaven seem nearer and brighter
To know we have loved ones there

The rolling stream of life rolls on,
But still the vacant chair
Recalls the love, the voice the smite,
Of our sister who once sat there.

By her Class Mate Mrs. C. O. Kendall,
Rock Hall, Md.
