—It is stated that Henry J. Schneider, of Elkton, filed suit on Monday in the U. S. District Court in Baltimore for $100,000, against the Victory Sparkler and Specialty Company, of Cecil County. The plaintiff alleges that his minor son, Henry J., Jr., was blinded and badly burned by the explosion of a toy torpedo, one day in last Spring.

Putting It On The Map

Better lubrication
from the moment the motor starts
—that's the secret of the new oil

HUNDREDS of road tests on all types of cars and trucks prove that the new "Standard" Motor Oil produces results never before associated with motor oils.

Typical of these tests is one with a *Dodge*, run over a 1,080 mile course from September 24th to October 22d, 1925, under engineering supervision. This test revealed 40.9% increase in oil mileage; 10% increase in gas mileage; smoother operation of the motor at all speeds; more power; less drag on the hills—all due to the remarkable lubricating properties of the new oil.

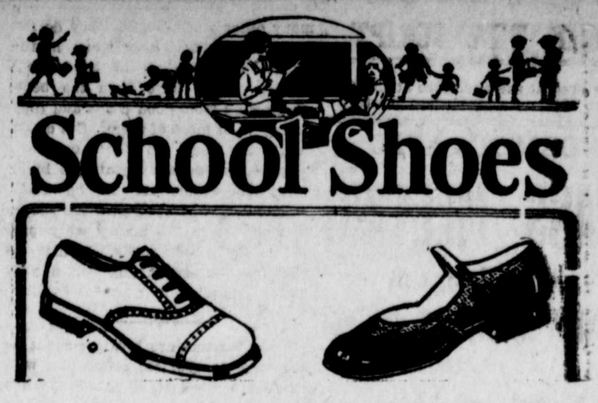

You can verify these astonishing results in your own car. Just have your crank-case drained, flushed and filled with the new "Standard" Motor Oil. Then expect results. *You can actually feel the difference.*

STANDARD OIL COMPANY
(New Jersey)

7 Advantages of "Standard" Motor Oil
1. Constant lubrication.
2. Minimum friction.
3. Less "breaking-down" under load or at high speeds.
4. More miles per quart of oil.
5. Better hill climbing—smoother operation.
6. Negligible carbon.
7. Actual saving in gasoline.

BEAUTY in WINDOWS

TOO many people think that windows—when they give any thought to them at all—are nothing but holes in the wall filled with glass. That is why so many houses today lack interest or charm.

The builder with taste thinks differently. He knows that with the proper spacing of the right size and kind of windows, he can make even the plainest, most inexpensive house actually beautiful.

The picture above shows a Curtis window. Note the interesting little panes and the thin muntins that divide them. The stiles and rails are delicately molded to give beauty in detail as well as general appearance.

But beauty in Curtis windows is not all you get. The check-rail of this window is so constructed that it puts up seven times as much resistance to the entrance of wind as ordinary check rails. That is but one example of Curtis quality.

Come in and talk over your window requirements with us. See our stock of other Curtis designs, too. Get a copy of an interesting, illustrated book, "Curtis Woodwork." It is free.
