SPORTS OF WEEK

WASHINGTON LOSES FINAL GAME TO TEMPLE—WESTERN MARYLAND'S GREAT TEAM—YALE DEFEATS HARVARD—OTHER NOTES OF INTEREST

Washington College lost the final football game of the schedule Saturday at Philadelphia with Temple University, the score being 13-0. In view of the good showing against St. Joseph's College a week before, Washington was expected to make a creditable showing, which it did. The season has been an unfortunate one, with poor material, and a hard schedule. Next year better results can be expected.

Yale and Harvard, each beaten four times, played their annual game on Saturday. Yale won, 12-7.

Navy and Army play in Chicago today. The Army and the Navy came within a single play of reaching this game without a defeat. If some Army man had laid more violent hands on a Mr. Flanagan there would have been no scratch on either slate. As it is, the Navy has rammed its way through Perdue, Princeton, Colgate, Michigan and Georgetown and the Army has made an unusual record, with one of the strongest of all Army teams ready for the closing whirl. Notre Dame has a great football team—even stronger in all the essentials than many know, and yet the Army gave this team an even battle in fifty-nine of the sixty minutes allowed for play. There will be as much class in the meeting of these two teams as any other combination can show.

Washington will doubtless have a better basketball team this year than last year. Although they have lost Fiore, they have secured a fast aggressive man to take his place, or fill in the gap elsewhere. With abundance of reserve material, Coach Kibler, with his extraordinary ability along this line, will doubtless build the best team here for years.

A number of interesting happenings in the sports department at Washington College have kept the students and local fans on edge, and interest in athletics at the Shore institution holds the center of the stage at present. Chief of these items is the probability that Capt. Fred Dumschott, who will pilot the Flying Pentagon on the basketball floor during the coming season will be practically free of an injury to his knee which kept him out of the football line-up almost the entire season. Dumschott has been under treatment by Dr. Mott, Naval Acadamy specialist, for his injury and it is believed that he will be able to play his usual game on the basketball floor. Dumschoot is regarded as one of the fastest and most reliable basketball players in collegiate circles, and he is a tower of strength to the team.

Besides the announcement that Graduate Manager Howell has completed arrangements whereby Washington College will meet St. John's College in both baseball and football in 1927, another interesting announcement is that for the first time in the history of athletic relations between Washington and Penn Military College, the latter's basketball team will play in Chestertown during the winter. Being a military college, P. M. C. has heretofore followed a policy of playing all athletic contests at home, but in as much as both colleges are members of the Middle States Collegiate Athletic Conference, which requires that each member play at home and abroad P. M. C., has been given a place on the basketball schedule shortly to be announced by Graduate Manager Howell.

Sports have netted almost a million dollars at Yale this year.

The baseball fans in Easton and Talbot county, have commenced to talk baseball in earnest for next season, and in all probability, Easton will be represented in the Eastern Shore League when the season opens next year by a town that will give a good account of itself in the pennant race. This is made all the more probable by the reliable information gained from the management of the club that a team in the American League will take over the Easton Club.

It is an established fact that this club actually contemplates making Easton a farming place. They will buy players and other clubs, sign up sandlotters and college athletics and put them on the Easton team hoping to develop the hopefuls into big league timber.

When this comes to pass, as it is most likely to do, as the management of the Easton club is negotiating with the big league town, it will give Easton a taste of young blood, enterprising and with a future ahead of them This league club (the name is withheld) will place competent management in charge of the Easton club and good coaches to develop the material, which would give Easton a very favorable showing in the Eastern Shore League.

Leaders in the Easton baseball club have been hoping to bring about the consummation of just such a deal for some time. A great many big clubs have been interested in making a farm of the Easton club, but it has never reached the point of development this deal seems to have reached. This will create added interest in baseball in this section and adjoining counties, it is said, and will help the directors or their successors to put over a winning club in Easton next season.

Faulty Elimination

Should Be Corrected—Good Elimination Is Essential to Good Health.

IF you would be well, see to your elimination. Faulty kidney action permits toxic material to remain in the blood and upset the whole system. Then, one is apt to have a tired, languid feeling and, sometimes, a toxic backache or headache, and often some irregularity of secretions, such as scanty or burning passages. More and more people are acclaiming the value of *Doan's Pills*, a stimulant diuretic, in this condition. For more than forty years *Doan's* have been winning favor the country over. *Ask your neighbor!*

P. A.

makes a pipe perform!

PUT it down for a fact here and now—if you don't know Prince Albert, you don't know how well that old pipe of yours *can* perform. You're going to find this out by personal experience some day. You may as well cut the corners and start today.

Buy yourself a tidy red tin of P. A. now. Open it up and let that fragrance of real, honest-to-goodness tobacco tell its own story. Then pack a wad of it into the bowl of your pipe and light up. The first pull will tell you no other tobacco ever tasted so good.

P. A. is so cool in a pipe . . . so refreshingly cool and sweet. It seems you never *will* get enough of it. Fortunately, P. A. is mild enough to let you smoke all you want. And it has body enough to make you *want* to. You try it and see!

You may think you are all set on a smoke-program. Never mind. Just wait till you have smoked Prince Albert! A pipe just hasn't had a chance if it has never been filled with P. A. Get some today! It will be a revelation. It will, for a fact!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

PRINCE ALBERT

—no other tobacco is like it!
