Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not odered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared to meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.

FORESTRY EDUCATION FOR STATE

The State Department of Forestry in Maryland is leading a way in forestry education that will have a tremendous effect on the next generation," said Charles Lathrop Pack, President of the American Tree Association today. "As a feeder to American Forest Week April 24, Maryland has in her Junior Forester campaign a plan that should be worked out in every state," Mr. Pack continued. The American Tree Association has put almost 10,000 Forestry Primers into the state through F. W. Besley, the State forester and the school teachers of the state. This plain phrased booklet on the forestry situation was published by the American Tree Association to mark 1926 the semi-centennial of the first step in forestry by the U. S. Government. The publication has now reached 700,000 copies, so great has been the demand from educators. Today a consignment of the Primers was sent to J. Frederick Virgin at Elkton, Cecil County is the experimental ground for the Junior Forester movement and Forester Virgin says the boys are taking to the idea in fine fashion. He adds, "the most popular pamphlet going to the boys is the Forestry Primer."

—Frank Saunders, colored, a 19-year-old oysterman was drowned in Chester River last week. The body was immediately recovered by other tongers but efforts to revive him failed The young man was subject to convulsions and it is supposed that he fell overboard when taken ill. Dr. E. Snyder administered first aid, but was unsuccessful in his attempts to revive the man.
