1926 Again Chevrolet's Greatest Year

In 1925 Chevrolet astonished the automotive world by attaining an annual production never before reached by any manufacturer of gearshift automobiles.

Yet, so spectacular has been the increase in demand for Chevrolet cars, that a new and even more brilliant record is the climax for 1926.

Thus, for two years in succession, Chevrolet has broken all its previous records and has set a new mark in automotive history.

This splendid achievement results from a steadfast adherence to the fundamental Chevrolet policy of building a car of the finest possible quality to sell at a low price.

That the vast majority of buyers now demand a car of this type—and that Chevrolet has been successful in building such a car—possessing the highest degree of smooth performance, smart appearance, and economical operation—is proved by Chevrolet's success during the year now drawing to a close. Come in and see this record-breaking car.
