VALVE-IN-HEAD Buick MOTOR CARS A24-15

Buick Ahead Again in the Yellowstone!

Again in 1926, more Buicks toured through Yellowstone Park than any other car except the one of lowest price.

Buick has held this same honor every year since the Park was opened to automobile travel.

This year there were 4,756 Buicks in a total of 44,472 cars registered. 101 different makes were represented in the registrations. One in every ten was a Buick.

Here is convincing evidence of Buick reliability—striking proof of the faith which Buick owners repose in their car.

They know Buick will take them and bring them back comfortably, safely and splendidly—across the Continent—or around the World.
