THE TRANSCRIPT

WITH THE re-convening of congress after the Christmas recess, the question vital to all agricultural communities and in fact to every branch of industry the condition of the farmer is still being discussed. Advisors who do not know conditions advises that they should not raise surplus crops but the farmer knows as every one else knows, who studies the question, that it is absolute necessary to raise a surplus crop for the continued stability of the nation, not to endanger its food supply. While manufacturers are encouraged to increase their out put the farmer is advised to show down. In Coolidge message to congress he says. "Every thing the farmer uses for farming is already on the free list but, to quote the words of Congressman Dickinson from Iowa," the farmer knows that every thing that goes to make what the farmer uses is protected, steel, hemp rope, and cast iron and this goes to make his implements higher." It is earnestly hoped that such legislation will be devised to make the farmer an independent man and rural communities as prosperous as the manufacturing communities are at present.

SHIPPING AT STANDSTILL

Last Schooner Leaves Chestertown

Power boats have been gradually replacng sail boats on the Chester for a number of years and the last schooner that called Chestertown her home port left when the Florence, owned by Messrs. Charles and Elmer Bachelor, was sold recently to parties living in St. Michaels. The Bachelors have purchased the power freight boat maggie C.

The power freight boats Kent, Chester, Kittz Woodall and Maggie C. are frozen tight at their piers in Chestertown with no water in sight.

The heavy fogs of last week and the ice of this week has heldup shipping on the Chester for two weeks.

The Tolchester ferry, has been making her regular runs but ice has delayed her many hours.

Shipping on the Chester River and upper bay is practically at a standstill due to the heavy ice that has formed during the cold nap of this week.

5 PER CENT. INTEREST ON FARM LOANS
Since the annual rate of interest was reproduced to 5 per cent. on November 15th, 1927, The Kent and Queen Anne National Farm Loan Association has received applications for loans totalling $73,000, showing the increasing popularity of this Co-operative method of borrowing money on farm lands.
If you are now carrying a 6 per cent. mortgage on your farm which never grows less, why not transfer it to the Federal Land Bank and get the benefit of the 5 per cent interest, enabling you to reduce your mortgage principal every year.
If you desire to purchase a farm the Federal Land Bank will finance the proposition to the extent of 50 per cent. of the purchase price on the 5 per cent. annual interest basis.
The Federal Land Bank proposition reduces the principal amount of your mortgage every year until it is finally liquidated on easy payments.
Come in and let me tell you all about it.
