COURT DECISSION AS TO THE TESTING OF COWS

A case of much interest to the farmers of this section was recently decided by the Circuit Court for Carroll County, Maryland. As set out in this decision a ruling was made by the State Board of Agriculture that any cow not registered in a particular association designated by it should be refused classification as a pure bred animal and be caissed as a grade cow whose appraisal should not exceed $75.00, while if so registered, the limit of the same cows appraisal would be raised to $150.00. The court held that there is no rule of reason or authority that the Court could find which would support the conception that the Board of Agriculture can say to any cow owner that unless you produce a certificate of registration in one or the other of these associations your cattle will fall into an inferior grade. The court further said that such a rule could not be regarded as conclusive evidence of the value of the cow or whether or not it should be paid for as a grade cow or blooded stock. The Legislature has placed its own maximum of $500.00 on every animal slaughted and the Court held that the Board had no power to say that an appraisement shall not go beyond a less amount if the animal be shown to be worth more than that amount. The value of the cow should be determined by two disinterested appraisers, one on the part of the state and one on the part of the farmer. The Act of legislature further provides that not the full market value of the cow is to be given but that the appraisement, together with the estimated value of the carcass, shall not exceed ninety per centum of the fair market value of the animal nor a total of $500.00 for any one animal. Mr. Clarence W. Perkins, of Baltimore, represented the former in the above case.

The Lyceum Festival, given by the Chautauqua Association, of Swarthmore, Pa., on Wednesday, Thursday and Friday of last week in Comegys Hall, was largely attended and thoroughly enjoyed. Those days brought something for all and everything for some. Epsecially happy are they to whom teh entire program appealed to whom the Gamble Co., in musical portraits were a delight and the readings by members of their company highly amusing. Dr. Frank Pearson carried them with him into the past and the future and revealed spirit as dominating the physical being and holding place subordinate to mind itself. through the medium of Daddy Long Legs the players provided delightful entertainment, trapper's ventrilaquism and S. S. Henry's magic and art mystified almost to be wilderment. Where the entire program is commendable, it is difficult to select ány number as excellent. What especially appeals to one, may not be the choice of another but perhaps Dr. Pearson's lecture holds the first place. Let's all hope its return next year.
