ROTARY HOE

There is not another tillage tool made that is quite as spectacular in its performance as the Rotary Hoe. You cannot fully appreciate it until you have actually seen its work. It can be pulled through a field of young corn, soy beans or other crops, without regard to the rows, and will do more real good than any other type of implement. The peculiarly shaped hoe points work right down around the little plants, working the soil just like a housewife works around her flowers with a garden trowel. Don't miss seeing this new tool.

Yours to serve,

Jones & Satterfield

Nowhere Else Such Features for

When you actually learn what the New Series Pontiac Six offers you for a base price of only $745, it's easy to understand the sensational success it is enjoying.

At the right is listed a group of advancements in design which never before have been combined in any low-priced six! Some of them—such as the G-M-R cylinder head and the cross-flow radiator—rank as master strokes of engineering. Yet these are only the *new features* that have been added to the basic design which enabled the Pontiac Six to make automobile history in the past two years!

You still get the largest engine used in any low-priced six. You still get the long life assured by an oiling system which forces 250 gallons an hour through the engine at 35 m. p. h. You still get the ability to maintain 50 miles an hour or more for as long as you like. Come in! Learn by comparison and by driving that you get the biggest, staunchest, most beautiful low-priced six the market affords today.
