RETURN-SHELL LAW UPHELD

The act passed by the last Maryland General Assembly requiring oyster packers and canners to turn over to the Conservation Department ten per cent. of shells of oysters used and the right of the Conservation Commissioner to refuse licenses to packers who refuse to obey this act were upheld in a decision of the Court of Appeals, handed down Thursday.

The case was that of I. L. Leonard and Company, oyster packers of Dorchester county, against Swepson Earle, head of the Conservation Department.

IT PAYS TO FERTILIZE A CORN CROP

Did you know, it pays to feed your Corn better than most any other crop, particularly with our regular Corn Fertilizer, that is especially adapted to its growth and maturity.

One of the requisites is to apply a sukcient quanity say: 350 lbs. to the acre, which is the amount used by the most successful Corn growers.

All of the County Agents and agronomists over the Country are now advocating the use of fertilizers on your Corn, as it not only increases the yield from 15 to 20 bushels more than the unfertilized, but also improves the quality, in that one user claims, he has now 50% more merchantable corn, than he used to have, before he commenced using fertilizer.

I know of one man, who bet his Son, it would not pay to use fertilizer, as he never had, they each put in a field, the young man fed his and the old man lost his bet, TRY IT.

FOR TOMATOES

Use Our Peerless Tomato Fertilizer, this has been on the market for years and many of the most successful Tomato Growers, will use no other.

We had one customer, who grew 19 tons to the acre a few years ago, with our goods and we will be pleased to supply you.

THE NEW FORD CAR

The Following Are Some of the Out-standing Features of the New Ford Car:

BODIES

The bodies of the new Ford are of steel, the only wood used being strips for attaching interior trim, and in the soft roofing of the closed cars. In designing the new Ford car every precaution was taken to prevent squeaks, rattles or drumming sounds. The bodies are built with every feature necessary to eliminate metalic noises. The doors are of heavy construction and welded to give greater strength and rigidity. All body parts that are of steel stamping which might develop noises have reinforcing beads which not only prevent drumming sounds, but also increases strength. In assemblying a boyd, panels and frame sections are welded and riveted together where ever there is a possibility of the body weaving, due to uneven conditions on the road, thus eliminating all chance of metalic squeaks of this nature. In the final assembly of the large units of the body where bolts are necessary strips of antisqueak material are used between the sections. Wherever there are two pieces of metal coming together which might cause squeaks a double ply artifical leather anti squeak tape is put between them. Another feature of the body construction is the insulation of a heavy pad heat insulator on the dash of each car. This pad not only keeps heat from the engine entering the front part of the body, but also serves to quiet noises.

WINDSHIELDS

The windshields of the new Ford cars are of triplex shadow proof glass, and important safety feature. When this glass is broke each small particle of glass adheres firmly to the pyroxlin plastic internal layer with the result that there is no flying glass. This is a highly important safety factor in automobile accidents, a large percentage of injury result from cuts by flying glass, particularly from the windshield. There are also other safety features of this glass. It softens direct sun rays, it breaks headlight glare, it elimnates condensation under windshield of closed cars during winter and is flexible under impact.

There are many more important features of the new Model A car which we will be glad to demonstrate to you if you will give us a call.

LOCAL MATTER

—Mr. T. C. Hadaway, the up-town butcher, sold his business this week to Mr. George T. Cooper.

—Washington College base ball team lost to Sheppard on Saturday of last week in a 6 inning game by a score of 4 to 3.

—Construction work on building concrete streets in Betterton, made possible by a recent bond issue in that town, was started this week.

—Following the recommendation of the Grand Jury, Sheriff Hadaway has ordered the removal of all slot machines, punch boards, etc., before May 1st.

—52 fox hounds from Kent and Queen Anne's counties, were purchased recently for a New Jersey hunt club. Some of the hounds were sold for $50 each.

—Mr. P. K. Howard, of Baltimore, gave a very interesting talk before the Chestertown Rotary Club on Monday evening of this week Mr. Howard described his experience in road building in Mexico.

—The contract for bids for the two new state roads in the first district were opened on Tuesday of this week. The contract has not been awarded although Layfield and Maller, of Salisbury, were the lowest bidder.

—Mr. A. H. Finley, of Philadelphia, who designed the local golf course, was in Chestertown on Tuesday. He predicted that the golf course will be opened about July 1st. The construction of the course, including sowing of grass seed was completed this week.

—Annoncement was made yesterday that Batallion Chief Howard Travers, of the Baltimore Fire Department will be one of the speakers at the dedication of the new Rock Hall fire house May 3rd. Following the shad supper, chief Travers will give an illustrated lecture on the prevention of fires in Junior O. U. A. M. Hall.

—Rock Hall High School easily defeated Millington High School on Thursday afternoon of this week in the first game of the High School series in the county. Games scheduled for next week are: Monday, Galena at Chestertown, base ball and volley ball; Wednesday, Galena at Rock Hall, base ball and volley ball.

—A 19-year-old girl, of Perth Amboy, N. J., whose parents charge she was transported illegally here by a halfbreed Cherokee Indian, was taken back home last week by police of that city after she and Harry DeWill, alias Chief Geyser, had been arrested at a local inn by Sheriff J. Thomas Hadaway and local officers.

—The Jane B. alias, Honeymoon Special, the new cabin cruiser of Mr. P. M. Brooks is completed and ready for launching.
