KENT FARMERS ADOPT FERTILIZING PLAN

The average yield of corn per acre, grown in Kent County for 1926, was only 34 bushels. The State average for the same year was 39.8 bu. per acre. Kent produced 5.8 bushels corn less per acre than the average for the whole State. Harford County's average yield was 51 bushels per acre or 17 bushels more than Kent. From these facts, it is abvious that Kent farmers have quite a corn problem.

County Agent Horace B. Derrick has studied this problem for several years and conducted demonstrations in cooperation with corn growers and it is his opinion that depleted soil fertility and not applying a balanced fertilizer in sufficient quantity is the largest single factor. One demonstrator produced 27 bushels of corn in one field managed in the usual way. On another field of 11 acres, he produced 73 bushels per acre. Other demonstrators produced up to 90 bushels of corn per acre. The following is the method of fertilization and management recommended by the County Agent:

1. Manure corn land.
2. Drill with wheat drill, 300 pounds of 16% acid phosphate per acre. On light or sandy soil and all soils deficient in potash, 300 to 400 pounds of 0-12-5 fertilizer, or two-thirds 16% Acid Phosphate and one-third Kainit.
3. Select Variety of corn suitable to conditions.
4. Select seed of that variety, free from disease and with healthy and vigorous germs
5. Drill, in fertilizer attachment of corn planter, 125 to 150 pounds of 2-8-5 fertilizer per acre, when planting corn.
6. Cultivate corn at least six (6) times, with the idea of keeping weeds killed out.

Where manure cannot be applied to corn field, or on the grass before corn, it is recommended to drill 300 pounds of 2-12-5 per acre instead of the other formula stated above.

It is suggested that every farmer using this method of fertilizing their corn, leave a few acres unfertilized so as to compare the results and it is requested that all farmers using the above recommendations, notify County Agent Horace B. Derrick, so he may keep in touch with the work for the benefit of Kent farmers.

Many farmers in the county have already adopted this corn fertilizing plan. It was proved a success in past years and will no doubt, greatly increase Kent's corn yield.

FOR CONGRESS

HON. T. ALAN GOLDSBOROUGH

Among the Eastern Shore newspapers having expressed themselves strongly in their endorsement of Mr. Goldsborough as Representative in Congress from the First Maryland District, are the following:

The Federalsburg Courier, Federalsburg, Md.; The Berlin Times, Berlin, Md.; The Democrat and News, Cambridge, Md.; The Marylander and Herald, Princess Anne, Md.; The Caroline Independent, Denton, Md.; The Democratic Messenger, Snow Hill, Md.; The Crisfield Times, Crisfield, Md.; The Salisbury Times, Salisbury, Md.; The Denton Journal, Denton, Md.; The Worcester Democrat, Pocomoke City, Md.; The Caroline Sun, Ridgely, Md.; Delmar News, Delmar, Md.; Centreville Observer, Centreville, Md.; Wicomico News, Salisbury, Md.

"It has not been necessary for the Messenger to declare itself in favor of the renomination of Mr. Goldsborough, because the readers of this paper are aware of the high regard we have for his abilities and his faithfulness to the ideals of the people he represents in Congress. At the last Congressional election Worcester County was his banner county, and the county will undoubtedly vote for his renomination and report its endorsement of him by an overwhelming majority over any candidate put up against him."—The Democratic Messenger.—(Snow Hill.)

"Mr. Goldsborough has served his constituency ably and well in the past and is doing so now, as he has fully recovered his health. No better representative, irrespective of party has ever been seated in the lower branch of Congress from the First Maryland District. His untiring efforts in behalf of the people of the Eastern Shore will, we are sure, not go unrewarded in the primaries next May. And with the party and the people of his home county behind him, as well as influential leaders all over the Shore, we are confident he will again represent our people in Congress."—The Denton Journal.

"After considering the situation from every angle, the Democrat and News is convinced that the best interests of the Democratic party will be served by the renomination of Congressman T. Allan Goldsborough, and this newspaper therefore urges the Democrats of Dorchester County and her sister counties of the First Congressional District, to give Mr. Goldsborough loyal support in the impending Primary contest. Mr. Goldsborough has been a faithful, capable servant of the people; his fine record in Congress entitles him to the favorable consideration of his party throughout the Eastern Shore; and his popularity with the people, as demonstrated during four previous campaigns, makes it evident that his renomination will mean Democratic success in November."—Democrat and News. (Cambridge.)
