To be filled may be good; it depends upon what we are filled with. The good book exhorts us to be filled with the spirit. There is nourishment and power in that kind of filling.

When Daniel prayed to God in defiance of the commandment of the King the King could do no harm to Daniel. He that is with us is more than all they that can be against us.

Colorado Cattle

Cattle did not originate in Colorado. The Spaniards brought cattle into their settlements in the Southwest and some into the southern parts of the state, but these cattle joined the buffalo and had disappeared when the settlement of Colorado began. The gold discoveries, attracting many thousands, and the establishment of Denver and other towns called for meat which resulted in the driving in of the Texas cattle or "long horns." That was the beginning of the in-

No Gallantry to Men

Attention is frequently called to the fact that women have accomplished almost none of the really great things. Is this due to the habit of forever praising women? There have been millions of really great men. These have had their share of human weaknesses, but they have accomplished great practical results. Is this due to our habit of pointing out men's faults frankly? In all history gallantry was never shown a man.—E. W. Howe's Monthly.

Not Original Draft

The fate of the original draft of the Declaration of Independence is not known. It probably went to the printer on the day after the declaration was adopted. The engrossed copy which was ultimately signed by the members of the Continental congress was formerly in the archives of the State department, but is now preserved in the Library of Congress. There, protected against handling and injurious light, it is now constantly on public view.

Protect Your Investment in Your Model T Ford

THE Ford Motor Company is making a new car, but it is still proud of the Model T. It wants every owner of one of these cars to run it as long as possible at a minimum of expense.

Because of this policy and because of the investment that millions of motorists have in Model T cars, the Ford Motor Company will continue to make parts until, as Henry Ford himself says, "the last Model T is off the road."

More than eight million Model T Fords are still in active service, and many of them can be driven for two, three and five years and even longer.

So that you may get the greatest use over the longest period of time at the lowest cost, we suggest that you take your Model T Ford to the nearest Ford dealer and have him give you an estimate on the cost of any replacement parts that may be necessary.

You will find this the economical thing to do because a small expenditure may enable you to maintain or increase the value of the car and give you thousands of miles of additional service.

No matter where you live you can get these Ford parts at the same low prices as formerly and know they are made in the same way and of the same materials as those from which your car was originally assembled.

Labor cost is reasonable and a standard rate is charged for each operation so that you may know in advance exactly how much the complete job will cost.

Feel Miserable This Spring?

To Be Well Your Kidneys Must Function Properly.

SPRING find you tired, nervous and depressed? Are you stiff and achy, subject to nagging backache, drowsy headaches and dizzy spells? Are kidney excretions too frequent, scanty or burning in passage? Too often this indicates sluggish kidneys and shouldn't be neglected.

Doan's Pills, a stimulant diuretic, increase the secretion of the kidneys and thus aid in the elimination of waste impurities. *Doan's* are endorsed everywhere. *Ask your neighbor!*

50,000 Users Endorse Doan's:

Mrs. Bertha Roth, 362 Bourbon St., Havre de Grace, Md., says: "My kidneys acted too freely and my back was lame and achy. Mornings the pains were so bad I could hardly dress. I was tired all the time and had headaches and dizzy spells. When I heard of Doan's Pills I tried them with wonderful relief. Continued use made me feel fine and all the troubles left."
