VALVE-IN-HEAD Buick MOTOR CARS

5 years of service

is only a starting point for BUICK-- Skilled engineering and rugged construction make it the *most durable of motor cars!*

Keep in mind when buying your new car, that more than three-quarters of all the Buick cars produced in the last twenty-five years are still serving their owners.

Buick endures—Buick stays young—Buick stands up and gives its best over a longer period than any other car—because it is endowed with an extra-rugged double-drop frame—Buick's world-famous Sealed Chassis and Triple-Sealed Engine—and the most nearly perfect oiling system ever developed—

You'll prefer Buick because it leads in beauty and luxury: and you'll prefer it, too, because it is the most durable of cars—and therefore the most paying investment.

All Buick models have Lovejoy Hydraulic shock absorbers, front and rear, as standard equipment

SEDANS $1195 to $1995 COUPES $1195 to $1850
SPORT MODELS $1195 to $1525

All prices f. o. b. Flint, Mich., government tax to be added. The G.M.A.C. finance plan, the most desirable, is available.

Farmers, List Your Repair Needs

It would be hard to find a farmer who at some time or another had not lost valuable time waiting for necessary repair parts. Take this territory and total up the time lost in this way and it will astonish you. And all because repairs are not ordered as early as they should be.

There is no better time than right now—just before the busiest season on the farm—to go over your machines carefully, make a list of repairs you are likely to need and send it to us. With this list in our hands, we can order our stock so as to be prepared t meet every call promptly.

Repair part service is a necessary part of our business. We realize what it means to you in time and money to get what you need at once. Help us to help you by making up your list now and sending it in to us.

POULTRY NOTES

ITEMS OF INTEREST THAT WILL HELP OUR POULTRY READERS

BY POLK T. BRAMBLE
(Proprietor Bramble Poultry Farm)

Maryland Poultry Day, June 8th

Plans are now being made for Poultry Day at College Park on Friday, June 8th. The subjects for the program are being arranged so as to be especially interesting to breeders, hatcherymen, egg producers, and turkey raisers. The program will hold something highly interesting for all Maryland poultry raisers. Mark Friday June 8th on your calendar now and plan to attend.

"Grow Healthy Chicks"

Would you be interested in a few practices in the brooding of chicks, which reduced chick mortality to one-third and increased egg production by thirty eggs per bird, for poultrymen who did not? This is exactly what the "Grow Healthy Chicks" campaign in Connecticut did for a number of poultrymen brooding more than a half million baby chicks in 1926.

Maryland's **"Grow Healthy Chicks"** project is now under way. If you are interested in lower chick mortality and increased egg production, consult your county Extension Agent about the **"Grow Healthy Chicks"** work. "Grow Healthy Chicks."

Prevention

Many have not yet had the opportunity of acsuainting themselves with the **"Grow Healthy Chicks"** work while some who are acquainted with it still insist on trying to cure rather than prevent. While it is not always possible to prevent, prevention is usually far less expensive in the end than the cure.

But the **"Grow Healthy Chicks"** project is not fool-proof, and chick troubles may develop in any brood. The following notes will be more helpful to **"Grow Healthy Chicks"** cooperators than to others, since such cooperators usually recognize that remedies are temporary measures only, and that sound management is the basis of permanent results.

Chicks Trouble Notes

From Hatching until 8 weeks old.

Symptoms

Eyes closed, Heavy breathing, Gasping, mouth open, crop filled with gas or water, inactive, unsteady, beak and shanks white, Bloody Diarrhea, short back, large abdomen.

Trouble Indicated

Colds (1), dust or ashes in litter (2), (number refer to treatment recommended on next page), Pneumonia (1), Aspergillosis (4), Colds (1), Pneumonia (1), Gape worms (3), Sour crop (5), Improper or mouldy feed. Over feeding (6), Coccidiosis (7), Improper feeding, Coccidiosis (7), Bacillary White Diarrhea (8).

Symptoms

Bowel trouble, peculiar shrill chirp while voiding droppings, Bowel trouble, Convulsions, Weak legs, Bacillary White Diarrhea (9), Overheating, chilling, improper feeding (6), Poison (9), spoiled feed, excess of water. Lack of sunshine or Vitamine D (10).

Post-Mortem Appearance

Mucous in windpipe; lungs congested, Windpipe containing worms, Lungs with cheesy nodules, Enlarged stomach, Liver bright yellow, Presence of egg yolk, Intestines inflamed, Liver spotted, Intestines inflamed, containing blood, Caeca containing blood and cheesy matter, Kidneys enlarged.

Pneumonia (1), Gape worms(3), Aspergillosis (4), Bacillary White, Diarrhea (8), Overfeeding (6), Overheating; chilling (6), Bacillary White Diarrhea (8), Chilling, overheating (6), Bacillary White Diarrhea (8), Coccidiosis (7), Bacillary White, Diarrhea (8), Coccidiosis (7).

Coccidiosis (7), Coccidiosis (7), Overfeeding (6), poisoning (9).

Treatment For Troubles.

1. Colds or Pneumonia. Correct conditions of exposure. Clean and disinfect; reduce feed, give physic and use potassium permanganate or B-K in drinking water.

2. Eyes Closed. Clean and disinfect; use clean straw or shavings for litter, avoid dust.

3. Grapes. Remove worms with a remover. Move chicks to clean ground.

4. Aspergillosis. Burn all dead and sick birds; clean and disinfect; use clean litter and clean feed. Avoid use of hay chaff, mouldy feed and dust.

5. Sour Crop. Use one teasponnful baking soda to each quart drinking water. Correct feeding.

6. Overfeeding. Give slight physic. Reduce feed or feed more often.

7. Coccidiosis. Burn all dead and affected chicks, replace one-half the mash with bran. Feed lightly for a few days and give a physic of epson salts. Use copper sulphate (bluestone) in drinking water (ounce to ten gallons water.) In cases of bloody diarrhea use catechu, one teaspoonful to three gallons water instead of bluestone. Keep sour milk before chicks at all times. Clean house daily and disinfect for a few days, then every five days. Supply plenty of green food. Move chicks to clean ground.

8. Bacillary White Diarrhea. Kill and burn all affected chicks at once Clean and disinfect thoroughly. Feed chicks lightly on mash and grain and liberally on sour milk. Don't try to cure sick chicks. No way is known.

9. Convulsions. Give chicks a physic, and change to a wholesom food. Keep water before them at all times to avoid excessive drinking.

10. Leg Weakness. Get chicks in the direct sunshine, and feed a small quantity of tomatoes. Also give cod liver oil (1 pint to 100 lbs. of mash.)

"Grow Healthy Chicks" and avoid the most common troubles. Approved T. B. Symons, Director.

He who ignores justice and love in judgement, is no judge at all. He is only a hypocrite in high places.

Officers from Easton made a raid on the business places in the lower part of Talbot county last week. They found 31 machines in operation. A number of persons in Easton and St. Michaels who have been running these machines were given a tip that a raid was being planned and made away with their machines before the officers reached their places of business.

Camp Davenport, conducted by the Diocese of Easton for some years past will not be continued, according to a decision of the Social Service Council of the Diocese of Easton. This Camp has been held on the Speer property on the Choptank river and has grown to a point where new and larger quarters are needed. It is determined to abolish the Camp until such time as the site and necessary funds are in hand to make it a permanent fixture.

PRICE REDUCTION

—OF—

Quality Chix!

Beginning week of April 30, we are making a big reduction in the prices of our High-Quality Chix. We advise our customers to send in their orders early in order to secure the date they wish.

Importers, Blenders and Roasters of Quality Coffees since 1831

WHY DENY YOURSELF THE BEST COFFEE?

Don't Neglect Your Kidneys!

You Can't Be Well When Kidneys Act Sluggishly.

DO you find yourself running down—always tired, nervous and depressed? Are you stiff and achy, subject to nagging backache, drowsy headaches and dizzy spells? Are kidney excretions scanty, too frequent or burning in passage? Too often this indicates sluggish kidneys and shouldn't be neglected.

Doan's Pills, a stimulant diuretic, increase the secretion of the kidneys and thus aid in the elimination of waste impurities. *Doan's* are endorsed everywhere. *Ask your neighbor!*

50,000 Users Endorse Doan's:

Mrs. John B. Michel, 2070 E. Oliver St., Baltimore, Md., says: "I have known of Doan's Pills for years and have always found them good. I had dizzy spells and headaches and my kidneys seemed sluggish. I felt tired all the time and was lame and sore all over. I give Doan's Pills credit for restoring me to the good health I have enjoyed since using them."
