STATEWIDE SAVE-A-LIFE CAMPAIGN

Announced by Proclamation Issued by Gov. Albert C. Ritchie

In an effort to reduce automobile accidents and eliminate loss of life caused by motor vehicles in Maryland, a state-wide "Save-A-Life" campaign will be conducted from June 15 to July 15, it was announced today by E. Austin Baughman, Commissioner of Motor Vehicles.

The campaign was announced today for the State by a proclamation issued by Governor Albert C. Ritchie at the Capitol this morning. The proclamation calls upon all municipal authorities, motor organizations and civic and commercial bodies to cooperate in the "Save-A-Life" movement and also calls attention to the new Motor Vehicle Inspection Law.

Under the provisions of Chapter 257 of the Acts of the General Assembly of Maryland as enacted at the Session of 1929, the Commissioner of Motor Vehicles is authorized to require an inspection of the safety factors of all motor vehicles in the State. The inspection of motor vehicles shall consist of brakes, lights, horns, steering mechanism, windshield wipers, rear view mirrors, obscure license tags and operators' licenses.

Service stations and garages in every community in the State will be appointed to serve as official inspection stations from June 15 to July 15, inclusive. During this period every motor vehicle owner is requested to drive or send his car or truck to one of these official inspection stations to be examined regarding its mechanical condition. This inspection will be made entirely without charge at official garages and service stations and the motor vehicle owner is free to choose any official inspection station he desires.

Official windshield stickers will be issued in the name of the State Motor Vehicle authorities and one of these will be placed on every motor vehicle that passes inspection as being in good mechanical condition insofar as its safety factors are concerned. Cars that reveal mechanical defects which render them unsafe will have to be put in good order before the official State sticker will be issued to the owner.

"The proposed 'Save-A-Life' inspection of automobiles will be devoted chiefly to the brakes, horns, lights, steering mechanism, windshield wipers and mirrors," said Commissioner Baughman in announcing the campaign to reduce automobile accidents and prevent fatalities in the State. "These are the items most likely to get out of order on the average automobile and truck and statistics show that they are the most frequent causes of accidents.

"We want no unsafe automobiles on the roads in Maryland and co-operation of every citizen and motorist in getting his car inspected free of charge between June 15 and July 15 will go a long way towards saving lives and preventing accidents.

"It is perfectly obvious that the best driver in the world cannot stop a car that has no brakes or warn pedestrians and other cars if the horn is not working. Inspection of drivers is not sufficient; the vehicle they drive must also be in a safe condition to prevent injury to themselves and others.

"Forty per cent of deaths from automobile accidents in the United States are caused by defects in the mechanical condition of the automobile itself. A modern automobile is good for tens of thousands of miles of service and it is entirely safe in the hands of a careful driver, but being a piece of machinery it requires regular mechanical inspection at least once a year to keep it in good running order and to operate it economically and safely."

Governor Ritchie's proclamation calls upon the officials of every community and various civic and industrial organizations to lend their whole-hearted support to the State-wide movement for greater motor vehicle safety. The text of the proclamation follows:

EXECUTIVE DEPARTMENT
ANNAPOLIS, MARYLAND
SAVE A LIFE CAMPAIGN
June 15 to July 15, 1929, inclusive

WHEREAS, Experience has demonstrated that a considerable portion of the accidents involving motor vehicles is directly chargeable to defective mechanism or equipment; and

WHEREAS, These accidents leave in their wake untold suffering and loss of human life and limb, entirely aside from wanton waste of and damage of and to property; and

WHEREAS, It is believed that careful and frequent inspection of such mechanism and equipment will eliminate most, if not all, accidents chargeable to such defects; and

WHEREAS, By Chapter 259 of the Acts of 1929, the Commissioner of Motor Vehicles of the State of Maryland is authorized to require the inspection of any motor vehicle or trailer to determine whether or not it is unsafe or improperly equipped or otherwise unfit to be operated, such inspection to be made at such times and in such manner as the Commissioner of Motor Vehicles may specify; and

WHEREAS, Numerous owners of garages and service stations throughout the State have been designated by the Commissioner of Motor Vehicles to make the said inspections without expense to the State or to the owner of the motor vehicle, which said garages and service stations will be identified by and will display an official poster; and

WHEREAS, E. Austin Baughman, Commissioner of Motor Vehicles of the State of Maryland, pursuant to the power and authority vested in him by the aforementioned statute, and in co-operation with the automobile industry of the State and the owners of the garages and service stations aforesaid, has arranged for such inspection, free of charge, the same to include examination of brakes, horns, lights, steering mechanism and mirrors, during the period from the 15th day of June to the 15th day of July, 1929, inclusive.

NOW, THEREFORE, I, ALBERT C. RITCHIE, GOVERNOR OF THE STATE OF MARLAND, do proclaim the period from the 15th day of June to the 15th day of July, 1929, inclusive, as SAVE-A-LIFE PERIOD.

And I hereby order and direct, and earnestly call upon, all owners and operators of motor vehicles to avail themselves of this opportunity to have their motor vehicles inspected without charge, and upon learning of any defects in mechanism or equipment or the adjustment thereof, to have such defects eliminated immediately.

I respectfully recommend to the municipal authorities of each city, town and village of the State that they make similar proclamations to their townspeople, that Presidents of Chambers of Commerce and luncheon and motor clubs and civic organizations stress the significance of this safety movement, and I further recommend the subject of public safety as an appropriate theme for the clergy and public speakers during the public safety period aforesaid to the end that greater success will attend the effort to reduce car accident hazard.

GIVEN under My Hand and the Great Seal of the State of Maryland, at the City of Annapolis, this fifth day of June, in the Year of Our Lord, One Thousand, Nine Hundred and Twenty-nine.

(THE GREAT SEAL OF THE STATE OF MARYLAND)
ALBERT C. RITCHIE,
By the Governor:
DAVID C. WINEBRENNER, 3d,
Secretary of State.

SAVE-A-LIFE CAMPAIGN

Official Details Announced by E. Austin Baughman, Commissioner of Motor Vehicles

Official details of the Save-A-Life Campaign and mechanical inspection of all automobiles and trucks in this State from June 15 to July 15, inclusive, just announced by proclamation of Governor Albert C. Ritchie, were announced today by E. Austin Baughman, Commissioner of Motor Vehicles.

Under the provisions of Chapter 257 of the Acts of the General Assembly of Maryland as enacted at the Session of 1929, the Commissioner of Motor Vehicles is authorized to require an inspection of the safety factors of all motor vehicles in the State. The inspection of motor vehicles shall consist of brakes, lights, horns, steering mechanism, windshield wipers, rear view mirrors, obscure license tags and operators' licenses.

The official inspection will be entirely free of charge due to the co-operation of garages, car dealers, repair shops and service stations in every community of the State, which have indicated their willingness to serve as official State inspection stations and make the required examination without any charge to the owner, the State or community.

Every leading motor organization, commercial and civic bodies, insurance companies, moving picture industry and railroads have expressed their willingness to co-operate in the Save-A-Life movement.

The new law is being put on in the form of the Save-A-Life Campaign and really is an intensive effort to cut down the accident rate in Maryland and to make the State a model in this respect. The Campaign is directed solely against reckless driving and the mechanical defects that are apt to develop in the safety factors in cars and trucks under service conditions, because such defects are one of the leading causes of motor accidents. It is the belief of automobile authorities throughout the United States that if all motor vehicles could be quickly and easily controlled by their drivers the accident rate would rapidly diminish. "The Save-A-Life Campaign is a national movement in this direction and Maryland should take a leading role," the Commissioner said.

The official method of the Campaign and of the inspection according to the law will be as follows:

1. Every automobile and truck in the State to be inspected by a competent mechanic in a reliable service station to be designated and appointed with approval of the Motor Vehicle Department, and if the car or truck is found unsafe or to have mechanical defects it must be put into safe condition before an official inspection tag will be issued to the owner.

2. Official inspection stickers will be issued to all cars and trucks that have been examined and found to be in good condition, or that have been put into good condition after being examined and found to need adjustment.

3. In order to remove any possible cause for resentment, inconvenience, hardship or loss of time on the part of the automobile or truck owner, this inspection will be made absolutely free of charge at official inspection stations, and the vehicle owner is at liberty to choose any official station he prefers.

4. Any adjustment or repair found necessary to insure safe operation may, at the owner's order and with his permission, be charged for at the usual rate of charge for such mechanical service by the station. Any agreement in this connection is solely between the vehicle owner and the inspection station

5. Brakes, horns, lights, steering mechanism and mirrors will be the chief points of inspection.

6. Brakes will be tested as follows: Two-wheel brakes car going 20 miles per hour must stop in 50 feet. Four-wheel brakes car going 20 miles per hour must stop in 35 feet. Emergency brakes car going 20 miles per hour must stop in 75 feet. Trucks over three tons going 20 miles per hour must stop in 75 feet by foot brake. In case a brake testing machine is used the equivalent of above is required.

7. Horns shall be tested by pressing the horn button and determining whether the signal is prompt and gives sufficient warning.

8. Lights shall be tested as follows: Bulbs in headlights shall be checked for conformity to State law. Bulbs showing signs of blackening or a whitish discoloration inside the glass are insufficient and should be discarded. All bulbs which are burned out or missing must be replaced. Lights must have proper lens and the reflector must be bright. All tail lamps must have a red lens.

9. Steering mechanisms must be examined in all their wearing parts. These wearing parts must appear to be sufficiently strong to avoid any possibility of breaking under ordinary conditions, thus causing an accident.

10. Windshield wipers (if automatic or electric) must operate sufficiently to give clear vision at all times; (if manual) the rubber "sweeps" shall be in such condition as to clear the glass properly.

11. Truck mirrors are to be inspected to make sure that they are in such condition and so placed as to give good rear visibility.

12. Operator must show operator's license.

The co-operation of the motoring public is earnestly requested to make the Save-A-Life Campaign a great success, and in the interest of public safety every car and truck in Maryland should be wearing its official inspection emblem of civic co-operation and mechanical good order by July 15, when the Campaign ends.

Meat Not Exclusive Food of Red Indians

Among all the American Indians there were no pure hunter tribes. In the north portion of the continent the diet was three-fourths animal food, in the southern part it was three-fourths vegetable, and with the tribes of the coast, mountains, lakes and plains it varied according to the food supply. As a rule the Indian women were cooks of considerable ingenuity and contrary to popular belief the Indains preferred cooked food. They were good at husbandry and after drying their vegetables they sometimes built granaries wherein to store them. Animal food was often dried or frozen, but sometimes was smoked. Fruits were pulped or dried. Nuts were often ground before being stored, as were also maize, grass seeds and the legumes. Potatoes and squashes frequently were stored in holes dug beneath the frost line. The Indians liked salt to flavor their dishes and obtained it sometimes by evaporating the water from salt springs and sometimes by taking the crystals from salt lakes and caves. Many of them were fond of chewing gum, which they got from spruce trees. Savors, flavors and condiments were valued highly.—Detroit News.

PUBLIC SCHOOL CALENDAR

Monday, September 9th, is the date set for the opening of the Kent county public schools for the fall term according to a school calendar recently issued by Superintendent Louis C. Robinson. The schools will close next year on Friday, June 13th.

Thanksgiving recess will be from Wednesday, November 27th until Monday, December 2nd and the Christmas holiday from Friday, December 20th, until Thursday, January 2nd.

White schools are scheduled to be open 187 days next school year. The colored high schools will be open 182 days and the colored elementary schools 162 days.

The calendar as issued by Superintendent Robinson is as follows:

Friday, Sept. 6, 9:00 A. M.—General Meeting for all white teachers.

Monday, Sept. 9, 9:00 A. M.—All White Schools and Colored High School open.

Friday, Sept. 20—Last day on which "beginning pupils can be admitted to the white school for the school year.

Tuesday, Oct. 1, 9:00 A. M.—Colored Elementary Schools open.

Saturday, Oct. 5, 9:00 A. M.—General Meeting for all Colored Teachers.

Friday, Oct. 11—Last day on which "beginning pupils" can be admitted to the colored schools for the school year.

Friday, Oct. 11, 2:30 P. M.—Special observance of Columbus Day in Elementary Schools.

Friday, Nov. 1—Country schools begin closing at 3:30 P. M. With one-half hour for lunch period.

Monday, Nov. 11, 2:30 P. M.—Special Exercises in elementary schools.

Wednesday, Nov. 27, 3:30 P. M.—All Schools close for Thanksgiving Holiday. Appropriate Thanksgiving Exercises to be held after 2:30 on this date.

Monday, Dec. 2, 9:00 A. M.—All Schools re-open.

Friday, Dec. 20, 2:30 P. M.—Exercises for observance of Christmas.

Friday, Dec. 20, 3:30 P. M.—All Schools close for Christmas Holidays.

1930—

Thursday, Jan. 2, 9:00 A. M.—All Schools re-open.

Monday, Jan. 27, 9:00 A. M.—Mid-year examinations begin.

Tuesday, Jan. 28, 3:30 P. M.—Mid-year examinations end.

Friday, Jan. 31, 3:30 P. M.—End of First Term.

Monday, Feb. 3, 9:00 A .M.—Beginning at second term.

Wednesday, Feb. 12, 2:30 P. M.—Appropriate exercises in elementary schools for observance of Lincoln's Birthday anniversary.

Friday, Feb. 21, 2:30 P. M.—Appropriate exercises in elementary schools for observance of Washington's Birthday anniversary.

Tuesday, Apr. 1—Country schools begin closing at 4:00 P. M., with one hour for lunch period.

Thursday before Easter, 2:30 P. M.—Appropriate exercises in Elementary schools for observance of Easter.

Thursday before Easter, 4:00 P. M.—All schools close for Easter Holidays.

Tuesday, following Easter, 9:30 P. M.—All schools re-open.

Monday, May 26, 9:00 A. M.—Final examinations in colored elementary schools begin.

Friday, May 30, 4:00 P. M.—All colored elementary schools close for summer vacation.

Friday, June 6, 4:00 P. M.—Colored High school closes for summer vacation.

Wednesday, June 4, 9:00 A. M.—Final examinations begin in the white schools except for the 4th year of the high school, to which examinations will have been previously given.

Friday, June 13, 4:00 P. M.—All white schools close for summer vacation.

N. B.—One day in April will be selected by the director of the Playground Athletic League, Inc., Baltimore, for Field Day among the colored schools and one day in May for Field Day among the white schools. Pupils are to be encouraged to participate in Field Day Exercises but teachers, when marking their registers are to indicate that the schools were closed by order of the Board of Education. Do not mark pupils either present or absent on that day. All teachers are required to attend the Field Day exercises and to encourage as many of their pupils as possible to participate. In is hoped that more teachers each year will arouse greater interest in Field Day among their pupils by participating in the badge test themselves.

The attendance summary of school calendar and number of days schools are to be open:

Legends of "True Cross"

There is no authentic information as to the composition of the cross on which Jesus was crucified. Legends on the subject are legion. The alleged fragments of the cross preserved as sacred relics are composed of pine. According to one legend, the true cross was made of four kinds of wood—palm, olive, cedar and cypress—representing the four quarters of the globe. A more poetic legend says the cross was made of aspen, supposed to account for the almost constant quivering of the leaves of that species. —Pathfinder Magazine.

Explaining "Curb Market"

"Curb" is the abbreviation of the word "curbstone." A curb market is one wherein the brokers buy and sell securities on the curbstone or in the middle of the street, as in the curb market in New York. It is in this market that stocks of a great many companies are dealt in which have not applied to the New York Stock exchange for listing, or which cannot be listed there, and where stocks are dealt in "when issued"—that is, between the time of their issue and listing on the New York Stock exchange.

THE SEDIMENT ZONE
