CERESAN
A Treatment For Wheat

Ceresan is very effective in the control of Bunt or Stinking Smut and is recommended for the control of seed bourne Flag Smut.

Ceresan is a very fine, gray dust, the chemical constituents of which do not cause corrosion of metals.

Therefore Ceresan should not clog the drill nor cause injury to its metal parts as is the tendency of some dust disinfectants.

Ceresan enables you to control many of the important cereal diseases speedily, economically and without danger to your seed.
