THE TRANSCRIPT

THOSE WHO VOTED for President Hoover because they claimed he represented "Dry" surely have it, if they ment dry weather, as the whole country is suffering for rain. In England, and some of the other foreign countries, the situation has become so serious that the inhabitants are not allowed to use the drinking water for bathing.

KENT ISLAND CANAL PROJECT TO BE DECIDED ON SOON

The much talked of Kent Island Canal prospect of the Claiborne- Annapolis Ferry is about to be reported on by engineers in charge of the preliminary surveys. It is understood that the report is ready and was being deferred until the return from Europe of Vice-President John M. Dennis. Mr. Dennis is expected home this week and it is thought the whole matter will come up for consideration next week.

Regardless of the canal the company is making its plans for ferry service from Kent Island to Annapolis. Discussing this phase of it Gov. Harrington, president of the company says services will be in operation within the time specified under its franchise. Whether the proposed Kent Island Canal will be constructed or not, will depend entirely upon the detailed report of the surveyors and engineers, to be submitted at a meeting of the officers and directors.

"But you can state" he said "that there positively will be a ferry operation across the bay, between Kent Island and Annapolis, whether there is a canal or not. We stand firmly pledged to this operation and it will be developed as rapidly as is consistent with good business."

Those affiliated with the Claiborne-Annapolis Ferry Corporation point out that many of the bay ferry companies which have started in the past and quickly met defeat, suffered disaster because they had not planned carefully before beginning operations.

One spokesman closely identified with the corporation, said:

"The Claiborne-Annapolis Ferry Corporation enjoys the enviable distinction of operating what is generally regarded as one of the most successful and satisfactory ferry lines in the country, for this reason the company and all its directors and officers are extremely anxious that no step should be taken that will lead to unexpected or unsatisfactory conclusions.

"When the Kent Island Ferry is ready to be placed in operation, it will have been carefully surveyed and planned, and the public will be sure of a steady reliable and convenient service.

"It is believed that this is the type of service that is vital, and any business man realizes the importance of careful planning in order to achieve satisfactory results."

It was further emphasized that any delays which have been apparent are due entirely to desire to inaugurate a service that will compare favorably with the type of operation already managed by the company.

The following is from the conservation department:

"In May 1927, the Biological Survey in issuing the Federal regulations under the Migratory Bird Treaty Act closed the season on greater and lesser yellow-legs for a period of two years. In April, 1929, said Bureau issued regulations closing the season on greater and lesser yellow-legs indefinitely, therefore, it will be unlawful to hunt, pursue or kill any shore birds of any species this coming season except rail birds may be hunted September 1st to November 30th, inclusive.

"We are often asked the question, if it is lawful to hunt or kill the upland plever. It is a violation of the law to hunt or pursue plover of any kind at any time.

"It is also unlawfful to hunt bobolink better known as "reed birds" at any time.

"Therefore, there will not be any open season on any shore birds of any species except rail birds, September 1st to November 30th, inclusive, and we earnestly request the sportsmen's co-operation with us in seeing that these regulations are carried out to the letter for the further protection of migratory birds."

STATE OF MARYLAND

STATE ROADS COMMISSION

ADMISSION 30c, 40c, 50c

The Third National Bank

of Chestertown, Md.

The Only Nationl Bank in Kent County

In answer to a question asked in this space last week as to who was responsible for the distribution of the $1,000,000.00 road fund among the several banks of Kent county, not one dollar ($1.00) of which the Third National Bank received, the Board of Directors of the Third National Bank submits the following interview held by Messrs. G. Ellsworth Leary and P. Medford Brooks (members of the Board of Directors of this bank) with County Treasurer Clarence Newsome. Wednesday afternoon, July 31, at Mr. Newsome's place of business at Betterton. "Mr. Newsome, did you have the distribution of county money?" Answer. "Yes, I had a slip of paper with distribution of money. On that slip I had $100,000.00 for the Third National Bank, $100,000.00 for the Millington Bank, both at the request of Mr. S. J. Johnson, and at a meeting between myself, Scott Beck and Fred Usilton, pressure was brought to bear to cut out the Third National Bank, against my wishes." Mr. S. J. Johnson, President of the Kent County Commissioners, and a director in this bank, verifies this statement in part by saying Treasurer Newsome promised him that he would deposit $100,000.00 in the Third National Bank of Chestertown. The above speaks for itself.

Due to the prevailing High Money Market, it was necessary that the last issue of Federal Land Bank bonds should bear a higher interest rate than issue immediately preceding.

Therefore, the Federal Land Bank hereby gives notice that on and after May 1, and until further notice, all loans made by the Kent and Queen AnneNational Farm Loan Association shall be at the rate of 5½ per cent. per annum instead of 5 per cent as heretofore.

Come in and let me explain the provisions of a Fedral Farm Loan to you.
