McCORMICK-DEERING 10-20, 15-30 AND FARMALL TRACTORS

Evidence is seen at every hand that farmers are pulling more profit out of their acres with power and machines that put more accomplishment into every working day, increasing production and reducing costs. Your acres offer equal opportunities for this new-day power farming equipment.

When you turn to power farming, take your tip from the widespread popularity of McCormick-Deering equipment. Your neighbors are making money with McCormick-Deering tractors and machines. Talk to one or more of these owners about the economy, long life, full 4-cylinder power, and easy operation of their McCormick-Deering tractors. If possible, climb on a McCormick-Deering yourself and pilot it over the soil. Your experience will prove an eye-opener.

McCormick-Deering tractor power, and the big-capacity machines that go with it, will work a magic transformation in all of your important operations.

During the coming weeks think of your crop production in terms of modern power farming. Figure what it will mean to you to save a day here and a week there as the season progresses. Think of the advantages of doing more thorough work while you are doing it in less time than ever before.
