IN MEMORIAM

In loving remembrance of our dear son and brother, August Herzberg, who died one year ago, August 24, 1928.

SADLY MISSED

In our home a dear one is missing
And a voice we loved is still.
One year a vacant chair has been standing,
A chair that can never be filled.

Not only today, but each day of the year
We think of our loved one at rest.
Till it seems again, his dear voice we hear,
Softly whispering, Weep not, God knows best.
By his loving Mother, Father and Brother.

In loving remembrance of our dear wife, mother and grandmother who died July 17, 1928, Mary J. Ashley,

My heart still aches with sadness,
My eyes shed many tears;
God only knows how I miss you
As it dawns another year.
By her loving husband.

You left behind an aching heart
Who loved you more sincere.
Who never did and never will
Forget you, mother dear.
By her loving children.

But God needed one more angel child
Amid His shining band,
And so he bent with loving smile
And clasped our Grandmother's hand.
By her Grandchildren.

HUGE ORDER FOR AIR MACHINERY

As an example of the rapid growth of the aviation industry an order for 400,000 pounds of sheet aluminum, the largest single order ever placed, to be used in the manufacture of airplanes, was announced by the Glenn L. Martin Company, this week drew attention to the recent growth of the aviation industry in Baltimore.

From comparatively nothing, the valuation of airports aircraft factories, accessory factories and allied industries has grown to approximately $25,000,000 during the last year.

Mr. Martin's approval of the purchase was a final step in preparing for removal from temporary quarters in the Canton Company warehouse, near Colgate creek, to the new $2,500,000 factory on Middle river. The installation of machinery and equipment in the new building has been under way for several days.

Raw materials and other equipment are being assembled and plans have been made to have the entire Martin personnel housed in the new factory by September 15. Before the first of the year the personnel will be increased from the present force of 300 to 1200.

Mr. Martin explained that construction on thirty seaplanes and ten flying boats for the navy, including one to cost $150,000, will be started as soon as the new plant is occupied which is being rushed by a large force.

Most of the labor will be recruited in Baltimore and trained in the art of fabricating airplanes.

Besides the military contracts, valued at more than $3,000,000 Mr. Martin announced that the company has embarked on an extensive program for building commercial ships. He revealed that an all-metal plane is in the process of construction and is a forerunner of the commercial program in prospect.

With the new factory almost completed, workmen are engaged in clearing trees and grading, from the great hangar doors at the south end of the plant down to the waterfront, to provide a flying field of 200 acres by October 5 and of 500 acres by spring. The field ultimately will be enlarged to 900 acres and the personnel of the factory is to be increased to 1,800.

CARNIVAL A BIG SUCCESS

The Chestertown Volunteer Fire Company carnival which closed on Monday of this week was a decided success in every way. The Gross receipts were approvimately $10,400 with possible net receipts of $5,000, although the net receipts have not been officially arrived at, ten per cent of the net receipts will be donated to the general hospital which will shortly be built in Chestertown.

The donations toward the inhalator are over $200 todate. This leaves approximately $50 yet to raise.

The prizes given away Monday night were as follows:

Automobile—Olin S. Hoxter, Stevensville, Md.

Speed boat—Grover Carter, Rock Hall.

Furniture and hot water heater—Robert Hadaway, William Bennett and Mrs. David Kendall.

Radio—Frank Jacobs, Rock Hall.

The fomide demonstration on a larg well of oil was a decided success although while the oil was being extinguished the siren sounded on a false alarm by some one who mistook the oil blae ror a home on fire. The local firemen gave a very efficient demonstration of a four stream hookup on truck No. 2.

Subscription to the Transcript $1.50 per annum.
